Undeclared War Sweeping Through South America

GRAN CHACO FRONTIER IS HIT HARDEST

More Than 250 Bolivian and Paraguayan Troops Killed Within Few Days

SAO PAULO REVOLTS

Colombia and Peru Battle Over Territory; Feeling Reported Running High

WAR, UNDECLARED but actual, is flaming through the southern hemisphere, making South America a battleground over thousands of miles of territory.

One undeclared war, another civil war and growing fear of a third international conflict defy the peaceful efforts of pan-American diplomats.

At least 250 Bolivian and Paraguayan soldiers were reported killed in the two weeks' battle raging about Fort Boqueron, in the disputed Gran Chaco frontier region over which the two countries are fighting. Wounded were estimated at more than 1000.

Bolivia has sent tanks to attempt to break through the line of 6000 Paraguayans who had almost surrounded the 2000 Bolivian troops in the fort. The undeclared hostilities there have been carried on with all modern weapons—airplanes, machine guns, field artillery and trench mortars.

The rich Brazilian state of Sao Paulo, which on July 9 rose against the federal government and demanded a return to constitutional procedure, continued today to hold most of its territory although hemmed in by federal troops.

Santo, the world's chief coffee port, has been closed for weeks, and immense coffee shipments to the United States have been stopped.

Cut off from telegraphic and mail communication with the outside world, Sao Paulo's powerful radio station daily sends out its version of the struggle.

From Copenhagen, Pittsburgh, London and New York, consignments of war materials have been sent to the various belligerents. Brazil was reported to have bought some 30 airplanes, of which 20 have been delivered.

The third spot of trouble was in the northwest, where Colombia and Peru were squabbling over territory, with feeling in both countries highly inflamed. Colombia was reported sending troops to Leticia, a small border town on the headwaters of the Amazon river which Peruvian radicals seized 10 days ago. Leticia was given to Colombia by a boundary treaty negotiated several years ago.

The late President Augusto B. Leguia of Peru, since deposed by a revolution, made territorial concessions which were resented by his own people. After the seizure of Leticia, the Colombian senate voted 16,000,000 pesos for national defense and all Colombia was swept by nationalist fervor.

Ecuador, situated between Peru and Colombia, has declared its neutrality and Brazil has sent a cruiser up the Amazon to guard her frontiers.

Roosevelt May Name Woman On His Cabinet

NEW YORK, Sept. 23.—(UP)—If Franklin D. Roosevelt is elected to the presidency, America is likely to have its first woman cabinet member, the United Press learned today in Democratic circles close to the nominee.

The woman is Miss Frances Perkins, industrial commissioner of the state of New York. She is represented as Roosevelt's choice for his secretary of labor. If appointed, she would be the first woman member of the cabinet.

AIRMAIL PLANE RUSHING SERUM TO MRS. BORAH

Senator's Wife Putting Up Sturdy Battle in Hospital at Boise

CHICAGO, Sept. 23.—(UP)—An airmail plane sped across the nation today bearing a precious supply of serum to combat the dread disease of parrot fever which has stricken Mrs. William E. Borah, wife of the senator, at her Boise, Ida., home.

The serum, hastily made by the U. S. public health service at Washington, D. C., was due to reach Boise Saturday.

The serum shipment was manufactured yesterday by government scientists after receipt of a telegram from Mrs. Borah's physician that he had diagnosed her illness as psittacosis—the dangerous malady which humans contract from parrots and which appeared in epidemic form on the Atlantic seaboard in 1930.

The mail plane bearing the serum passed through Chicago shortly after midnight and was due to arrive at Salt Lake City late today.

Instructions for treatment of Mrs. Borah were telegraphed her physician by the Washington scientists, many of whom contracted the disease in their efforts to fight the disease.

Dr. Charles Armstrong of the health service gave his blood to form the base of the serum. He was afflicted with the fever during his experiments but recovered after physicians had despaired of saving his life.

Putting Up Fight

BOISE, Ida., Sept. 23.—(UP)—Mrs. William E. Borah, wife of Idaho's senior senator, was today stoutly and, apparently, successfully fighting the onset of deadly parrot fever which she contracted from a sick parakeet.

"Mrs. Borah's condition is still serious," her physician, Dr. Ralph Falk, told the United Press today.

"But she has shown such marked improvement that I anticipate we may not be compelled to use the serum being sent here via airmail plane from Washington, D. C."

Dr. Falk said that much would depend on his patient's progress today.

If, he said, she makes the same strides towards recovery today that she accomplished up until an early hour this morning, he could feel convinced that she was safe.

CUDAHY HEIR PAYS POLICE COURT FINE

HOLLYWOOD, Sept. 23.—(UP)—Michael Cudahy, 25 year old heir to packing house millions, attempted to lead the orchestra at the opening of Hollywood's newest night club last night and as a result paid a \$10 fine for ascertained drunkenness in sunrise court today.

Young Cudahy was arrested after he had been evicted from the club and then began to create a disturbance. Radio police officers reported.

He recently paid a \$10 fine on a similar charge when he was found sleeping on the sidewalk bordering one of this district's exclusive boulevards.

BRIGHT SPOTS IN BUSINESS

BY UNITED PRESS

NEW YORK, Sept. 23.—(UP)—General movement toward increased business activity has met no reverse, Dunn's weekly trade review said today.

CHICAGO—Reports from all leading lines of trade and industry in the Chicago market area are mainly favorable, Brandstreet's said.

YOUNGSTOWN, O.—American Steel Foundries Corp. of Alliance has recalled 400 men to work following receipt of an order from the Pennsylvania railroad, it was announced here.

BALTIMORE.—August net income of the Western Maryland railway was reported at \$79,817, against \$69,288 in August, 1931.

HARTFORD, Conn.—Perkins, Strongman Corp. will resume full time operations on Oct. 26, after a shutdown of seven months, it was reported.

NEW YORK.—Current business of L. C. Smith & Corona Typewriters, Inc. is running 25 per cent ahead of August, officials said.

ST. LOUIS.—Mississippi River Power Co., reported net income for the year ended July 31 totaled \$1,730,300, against \$1,569,347 in the preceding fiscal year.

TEAR GAS USED IN DISPERSING 200 PICKETERS

National Guards Frustrate Attempts to Halt Opening of Mines

TAYLORVILLE, Ill., Sept. 23.—(UP)—Two hundred men and women pickets were dispersed in confusion under a tear gas attack today after they had defied orders of national guardsmen who reopened the Peabody Coal mine at Langleyville, near here.

The pickets had gathered at the mine entrance despite instructions by state troopers that no picketing would be countenanced.

More than 150 guardsmen including a machine gun detachment were deployed about the mine property when the signal was given for 300 men to return to work.

When the pickets failed to heed orders to move along, troops stationed behind coal cars flung a barrage of tear gas bombs. The group scattered in confusion.

Considerable numbers of miners protesting the reopening of the reduced \$5 wage scale were in the vicinity.

EXPLORER DESCENDS 2200 FEET INTO SEA

NEW YORK, Sept. 23.—(UP)—William Beebe, explorer, today held a new record for sub-sea descent, 2200 feet, almost half a mile, as well as a weird picture of unknown fish with headlights.

The explorer made his venture into uncharted ocean depths in the "Bathysphere," an airtight ball, with the inventor, Otis Barton, yesterday off Bermuda. A word picture of the feat with Beebe describing what he saw was broadcast.

Peering through a tiny window in the "Bathysphere," Beebe reported it "dark as hades" at one instant, then "very brilliant" the next. Irridescence of passing tropical fish provided light by which he could study rare marine specimens.

Bear Attack Repulsed By Big Traders

United Aircraft and General Motors Carry Up Entire List

NEW YORK, Sept. 23.—(UP)—Moderate profit taking developed at intervals during today's session on the stock exchange, but it was insufficient to erase all of the early gains that ranged to 4 points.

Volume was more than a million shares under yesterday's total of 3,700,000.

Traders were cautious about new commitments and shorts, who received a severe trouncing on Wednesday, were just as reticent.

The market opened irregularly higher and moved up slowly in the early trading. Large blocks of United Aircraft, General Motors and Chrysler enlivened the trading while the remainder of the list moved slowly with prices firm.

United Aircraft was again the most active issue on the board, accounting for more than 200,000 shares of the total transactions.

Chrysler and General Motors each gained more than a point while Auburn was up more than 3 points. Nash also was active and strong and the whole automobile section displayed a better tone than in recent markets.

The aviation issues followed United Aircraft. The latter at one time touched 34 3-8 up 4 1-8 points. United States steel issues were higher most of the day. The common at one time reached 4 1-4 up 2 1-4 points and the preferred gained 2 points. These advances were reduced in the late trading.

Railroad shares received further attention, especially the main eastern roads. Representatives of these lines were in session today to discuss the proposed four party trunk line consolidation plan approved by the interstate commerce commission recently. They made no announcement up to the close of the stock market.

Lackawanna again was the feature of the carriers, rising more than 3 points. Substantial gains also were made by Southern Pacific, New York Central, Pennsylvania and Chesapeake & Ohio.

Utilities held part of their early gains which ranged to more than 2 points. Consolidated Gas led the group. American Telephone ranged between 116 1-4 and 114 1-2 and closed at 114 7-8 up 1-2 point from the previous close.

Among the day's news of market activity was the report that the New York governor was greeted by more than 50,000 cheering persons upon his arrival here. Sailors of the Pacific fleet and tattered habits of the waterfront mingled conspicuously in the throng that lined Market street as the candidate's automobile moved slowly from the ferry building to the Palace hotel.

In appealing for the support of the running mate of Theodore Roosevelt in the revolt of progressive Republicans in 1912, Roosevelt surprised his Sacramento listeners when he declared:

"I invite them, I welcome them, and I pledge my faith to the principles that have brought us to this."

He took cognizance of Johnson's blast against the administration, made at Modesto Wednesday, and declared himself "100 per cent" in accord with the doctrine laid down by the stormy petrel of California politics.

DR. POLING PLANS TOUR OF 31 STATES

WASHINGTON, Sept. 23.—(UP)—Dr. Daniel A. Poling, dry leader, will make a 25,000 mile air tour into 31 states for 201 speeches in behalf of the Republican national ticket, it was announced here.

Poling is head of the allied forces for prohibition. The tour will start from Topeka, Kans., next Monday in a plane to be christened "Raymond Robins" after the missing prohibition crusader, who originally was scheduled to make the flying campaign.

Director W. Roy Breg of the allied forces said Poling will speak in "practically every debatable state," crossing the country three times before he arrives in Portland, Ore., to vote on election day.

SLASHES WRISTS OF SLEEPING CHILDREN

LOS ANGELES, Sept. 23.—(UP)—A woman and her four small children, blood streaming from their badly slashed wrists, were rushed to Georgia street police hospital today.

The mother, Mrs. Harriet Pulp, 31, told police a weird story of a "female fiend" who crept into the bedrooms of the children before dawn and cut their wrists with a razor, later attacking her.

But two of the children, questioned separately, told officers that their mother had inflicted the wounds and then attempted to end her own life, detectives said.

The children are Marvin, 3; Harriet May, 7; Roland, 6; and Courtney, 3. All probably will recover.

MANCHURIAN DISPUTE IS TO COME UP

Fate of League Rests With Outcome of Battle at First Assembly Meet

MAY DELAY ACTION

Report of Commission Will Be Submitted to Council at Parley Today

GENEVA, Sept. 23.—(UP)—Japan and the league of nations were ready today for a battle over the Manchurian question which must end in ignoble defeat for one or the other.

Manchuria is Japan's stake. Victory for the league means an extension of its authority in world affairs; defeat means its destruction.

The council of the league was called to order in preparation for the assembly meeting Monday, when the report of the league commission which investigated Manchurian conditions is scheduled to be discussed. The report of the commission, headed by Lord Lytton of Great Britain, has been received by the league secretaries.

It was possible that the Lytton report would be held over until after adjournment of the assembly, in order that it could be taken up by the new council early in October and immediately turned over to an extraordinary assembly for action. But no matter what procedure is followed, it was generally believed that Japan would withdraw from the league at the crucial stage of discussion of the report.

The break will come, it is believed, when Japan denies the right of the council to turn over the Lytton report to the assembly. Japan has held that the commission was sent to the Far East by the council and not the

PRINCE OF WALES CALLS ON PRINCESS

LONDON, Sept. 23.—(UP)—The "we want Wales wed" faction of European royal matchmakers was greatly encouraged today by the fact that the world's most eligible bachelor, the Prince of Wales, was on royal business near the home of Princess Ingrid of Sweden.

Although the Prince is officially opening a British trade exposition at Copenhagen, the matchmakers noted that the Prince would make his first visit to the Swedish court before he comes home. He spent much time with his parents at Balmoral before leaving England.

Tumor called it an appropriate occasion for asking the hand of the 22-year old Ingrid.

WILL ROGERS SAYS:

BEVERLY HILLS, Sept. 23. (To the Editor of The Register:)

Wisconsin did something or other in the papers this morning. I don't know what it was as they are always doing something that nobody can figure out.

Stock market did something yesterday, too. I don't know what it was. It's always doing something that nobody can figure out.

Looks like this fellow McKee, the acting mayor of New York, is doing some mighty good acting and is liable to be cast for the part permanently. Walker wasn't as smart as I figured him. I would have never let an understudy like that get a chance to "go on" if I had been Jimmy. Had a great night last night, there was static on the radio and you couldn't hear a single political speech.

Yours,
WILL ROGERS.

NEW OFFICERS ARE INSTALLED BY S. A. LEGION

An unusually large number of American Legion members and members of the auxiliary met at the Legion's home on Birch street last night to see new officers installed for the coming year in both organizations.

Divorce Sought By Wife As Mate Brags Of Affairs

Charles A. Vinson of Costa Mesa has been sued for divorce by his wife, Mrs. Emma I. Vinson who charges that her husband told her that he had been unhappy for 23 years and said "I want to get someone with whom I can be happy before I die," and boasted before the couple's children of his affairs with other women. He frequently mentioned "Lucy" and "Blondie" to his family, she declared.

On Valentine day, this year Mrs. Vinson says, her husband displayed a valentine which he said that he had purchased for "Blondie" who lives in Long Beach and told his family that he "was crazy about her" and "wanted to marry her." He told his wife that he would like to rent a double apartment so that he could have "Blondie" close to him.

On the day before his wife left him Vinson is alleged to have told his wife and daughter that he was going to bring a woman home with him and take her to Tia Juana and sea if he could get a divorce and marry her. Mrs. Vinson and her daughter, according to the complaint, packed their belongings and left immediately.

The Vinsons were married August 12, 1909, in Yates Center, Kan., and separated September 16, last, at Costa Mesa.

assembly. The council then would be forced to send the document to the assembly over Japan's veto. The next logical step would be announcement of the Japanese intention to withdraw from the league.

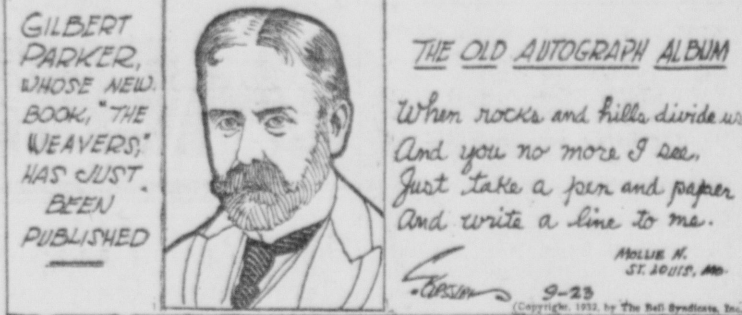

The uncertainty of the whole Manchurian affair gave the council meeting the utmost significance. The council is not expected to discuss the contents of the Lytton report, but merely to prepare for a fight with the Japanese delegate regarding submission of the report to the assembly.

GOV. ROOSEVELT MAKES BID FOR JOHNSON'S AID

(Continued from Page 1)

Out of the conference between Roosevelt, his close advisers, and California political leaders, was expected to come definite plans calling for steady emphasis of Rooseveltian liberalism calculated to appeal to Republican progressives and Democrats.

William Gibbs McAdoo, war time secretary of the treasury and Democratic nominee for United States Senator, spoke from the train platform after Roosevelt.

"The Democratic organization of California is for Roosevelt," from hell to breakfast," he said.

Although not listed as one of the so-called "major addresses" on the tour, his friends said the speech before the Commonwealth Club of California this afternoon was "extremely important as in it he would discuss his philosophy of government."

In the evening he was expected to take up one of the co-related subjects of his general economic program.

The Roosevelt Transcontinental special will leave from Los Angeles late tonight. From there it will go to Williams, Ariz., where Mrs. Roosevelt will join the party and where Roosevelt will rest for a day and put the finishing touches to the Slough City, Ia., address, the fourth major one of his transcontinental tour.

The weekly federal reserve report was considered highly favorable. Currency in circulation declined \$26,000,000, representing that much taken out of hoarding.

The country's gold stocks increased \$37,000,000 and further gains were looked for as a result of European participation in the American markets.

CREATE COMMOTION IN PRIVATE OFFICE

Police were called to the office of Dr. M. W. Hollingsworth in the First National Bank building yesterday afternoon after a Los Angeles lawyer and his process server were said to have forced their way into the private office to serve a civil paper.

Miss Gertrude Hubbard, nurse for Dr. Hollingsworth, received a black eye and bruises on her arm, when the two men are alleged to have tried to get away when the doctor called the police.

Officers arrested Eugene E. Sax, the attorney, and Irving Cohen, the process server, and took them to the city hall where they were questioned and then freed. Dr. Hollingsworth has signed no complaint, but said that he might, according to a police report.

Final plans were accepted and adopted by the directors for the Jubilee.

COOPERATION OF BARBERS IS REQUESTED

Investigation of recent stench bombings of several Orange county barber shops in an attempt to "organize" the shops, has been linked with similar investigations now under way in Los Angeles, Long Beach, Burbank, Culver City and other communities of the Los Angeles Metropolitan area according to Assistant District Attorney S. B. Kaufman.

The extent of the local investigation was not revealed, but Kaufman did request that all barbers who feel they have any information that would help the district attorney to circumvent further steps of the "organizers," to notify that office immediately.

According to investigations conducted through cooperation of Los Angeles officers, a strange combination has been uncovered of an association of master barbers on one side and union barbers on the other into a harmonious joint committee that includes in its field of activity shops whose masters are not members of the association and whose barbers are not members of the union, Kaufman said.

Similar Conditions
Investigations in Los Angeles revealed that more than 60 shops have been drenched with stench bombs recently. Several weeks ago several shops in Orange county received similar treatment. Kaufman yesterday pointed out that in every Orange county bombing, events immediately preceding the actual bombing and the method of attacking the shops were identical with Los Angeles attacks.

Shop owners were first approached by men who urged them to become members of a "protective" organization, paying so much initiation fee and contributing a percentage of shop earnings. In case owners refused to join they were visited in a few days by "field agents" of the organization and again urged to join. When this second request was refused, the shops were drenched by stench bombs during the night, making it impossible to continue business for some time. In several cases shops thus bombed were again visited by "agents" seeking enrollment of the shop in the "protective" organization.

One Arrest
In one instance a "field agent" was arrested in Orange county but declared that he knew nothing of the bombings. He said that he was representing the Los Angeles organization and was soliciting members.

Joe Kramer, of Los Angeles, state secretary of the employers' association, has said that the joint committee raised money to put field workers out to try to get all non-association shops to advance their prices on October 3, next, to 50 cents for a haircut and 25 cents for a shave. He said that the committee had its field men report the addresses of those shop owners who would not agree to raise prices but that these names had been destroyed when he learned that their purpose might be misconstrued because of the bombings reported to police.

FORMER COUNTY SCHOOL HEAD TELLS REASONS FOR OPPOSING PLAN TO SHIFT SCHOOL TAXES

R. P. Mitchell, former Orange county superintendent of schools, yesterday pointed out why he is opposed to the proposed amendment to transfer school costs from local to state sources. While opposing the proposed amendment Mitchell said that there are some good features to the plan.

He pointed out that the proposed amendment would, based on the daily average attendance over the state, increase school costs approximately \$10,000,000 annually. "It seems," Mitchell said, "that this is a poor time to make any increase in school costs and that is one of the reasons I am opposed to the measure."

It is true that the proposal would take approximately 70 cents on the \$100 of the annual county tax requirement but there is no assurance that after a few years boards of supervisors in some counties of the state would not add the 70 cents to the county tax burden for other purposes. Then we would be in the position of the state supporting the schools and the county still burdened with the additional 70 cent tax.

"Under the present amendment adopted in 1918 the counties must raise \$30 for each elementary student in the school based upon the average daily attendance, and \$60 for every high school student. The proposed amendment would require the state to raise \$40 for each elementary student and \$70 for every high school student."

"The most attractive feature of the proposed amendment is the fact that it proposes to take the school tax off the land, or assessable property and place it on incomes and selective sales."

"The present constitutional amendment was adopted in 1918 under which the state gives \$30 for each high school and elementary student and the county must raise \$20 for elementary and \$60 for high school students. Under that amendment the schools have prospered and grown and it seems to me that if the amendment is kept in force the schools will continue to grow."

"I am also opposed to Senator Breed's proposed amendment because he wants to repeal the present amendment and under his plan provide 20 per cent less state and county money for schools and would also reduce school district taxes 20 per cent."

"If that proposal were enacted the high efficiency of our schools could not be maintained and many departments would have to be dropped."

Racketeering is nipped in the bud, when such movements are started in Orange county, the speaker said, and as a result Orange county is freer from this type of criminal activity than any other portion of the state with like population. Racketeering started with contraband liquor, he said, and gradually extended to cleaners, beauty shops, barber shops, plumbers, and many other lines. Racketeering grew in the large cities, notably Chicago and New York, through the unconcern of the public and the conspiracy of the underworld for easy profits.

WILL EXTEND RURAL ROUTE MAIL SERVICE

More than 100 families in the Santa Ana postoffice district will obtain improved service on October 15 when new extensions are put into effect on five rural

routes. It was announced today by L. P. Harvey, superintendent of mails at the post office.

In nearly all instances, the improved service will result in covering more territory by the carriers already on the routes. The districts have been mapped out so that instead of roadside service, many more cross streets in the rural sections will be covered.

Routes which will obtain the added service are R. D. 3, the Silver Acres addition between Fifth and First streets; R. D. 4, the Glorietta district where extensions will be made through the entire section; R. D. 5 between

First and Fifth streets across the river, where the north and south streets will be served; and the Wendell Hill tract near the corner of Nimrocks and Wintersburg roads.

File Six Traffic Counts On Aviator

Cecil Allen, former Santa Ana aviator, who with Don Moyle attempted a non-stop flight across the Pacific last year from Japan, returned to Los Angeles yesterday from the Cleveland air races to find two police officers awaiting him with six traffic warrants.

He was escorted to the municipal court where he paid a total of \$47 in fines.

Moyle, it will be remembered, went to jail for 30 days on a drunk driving charge on his return from his unsuccessful non-stop attempt from the Orient, having been told that if his flight was successful, the sentence would be suspended.

PRORATA PLAN STILL HOPED TO BE REVIVED

Members of the citrus department of the Orange County Farm Bureau have not yet abandoned hopes for the prorata plan of handling orange shipments.

Meeting yesterday the department prepared some recommendations to be made to Farm Bureau directors at that body's next meeting. These recommendations in connection with the regulation of orange shipments will not be revealed until after the directors meet, according to R. D. Flaherty, executive secretary of the Farm Bureau.

A preliminary report by the marketing committee of the citrus department was submitted yesterday dealing with the handling of loose fruit and by-products. The report however was not completed and will be continued until a later meeting of the department.

The marketing committee was ordered to conduct a general investigation of methods of handling the loose fruit and by-products because of charges and counter charges that methods of handling the loose fruit are breaking down the market for advertised brands. The committee reported that J.

J. Dwyer, Anaheim, chairman; W. N. Cummings, Orange; and E. J. Smalls, Garden Grove, sub-committee members handling the investigation, had visited the loose fruit auction in Los Angeles last week. Only licensed buyers are permitted to make purchases at the auction and officials of the auction claim that sales are not permitted for shipment out of the state.

WIDENING OF TUSTIN ROAD ANTICIPATED

With the view of widening the state highway from Tustin to Irvine, agents of the state highway department have contacted property owners along the route to establish the right of way for the state on the property, it was learned today.

Although no definite details were available through the county road department, it is understood that the project is included in the state road budget. It was not known when the highway work would start or what the expense would be.

Property owners who own orchards along the way, will receive \$25 or \$30 a tree for the fruit trees that will have to be removed, it was learned. Probably one row of trees on each side of the road will be taken out to allow the widening.

CHURCH JAMMED TO HEAR FAMOUS 'WET VS. DRY' TEAM BARE LIQUOR TRAFFIC EVILS

A crowd that jammed the auditorium and balcony of the First Presbyterian church here to capacity last night, heard the dynamic and logical presentation of the liquor problem as given in the nationally famous "Wet vs. Dry" dialogue, drama and debate which was presented by the team of Hall and Summers.

The presentation in Santa Ana was sponsored by the local chapter of the W. G. T. U., an organization which was being credited with being the one group in the nation of which the bootleggers and wet interests are afraid.

Swaying the crowd with varying emotions, the presentation of the debate held the interest of the spectators during the entire time. The crowd laughed heartily at the many humorous situations and stories included in the presentation, or were tense and silent as dramatic thunderbolts were shot home by the team in laying bare the horrors and evils of the liquor traffic both in the days of the saloon and now.

Place Blame The blame for the present condition of the country regarding the liquor traffic was placed squarely upon the shoulders of the citizens who fail to exercise their right to vote. The citizen who breaks the law by drinking or purchasing liquor was blamed equally with the bootlegger who illegally sells liquor. Society in general was blamed for the ignorance of many who become engaged in the liquor traffic.

The story began with the entrance of Tom O'Neil, big-time bootlegger and former saloon keeper, who accidentally meets a judge whom he had known in the saloon days as a license commissioner. O'Neil was trying to obtain a "policy" to engage in the liquor business again by running a "drink emporium" when, as he expected, all liquor control laws were repealed. The discussion and debate that follows after the meeting formed the basis for bringing out illuminating facts and figures regarding the liquor traffic.

O'Neil termed the license he sought to run a drinking establishment a "policy" because, he explained, if a crime resulted from a drunken brawl in his place of business, the taxpayers would be required to pay out the thousands of dollars necessary for the prosecution and imprisonment of the man who committed the crime and could not collect from him. Possession of the "policy" absolved him from blame and expense, he told the judge.

Liquor vs. Orange Juice How the bootleggers and liquor interests form "protective" associations throughout the country in the cause of "personal liberty," was graphically told. How the endorsement of big business men and others of the wet policies is obtained was explained by the fact that they were forced to make these endorsements or lose their business.

Here in Orange county, O'Neil told the judge, the group will call themselves the "Orange County Protective association." The object will be to have the orange growers sign a petition for "personal liberty" but they will be cutting their own throats, he said. He brought out the point that if liquor comes back, orange juice will be thrown into direct competition with it and the orange growers will suffer accordingly. O'Neil embarrassed the judge several times with pertinent facts. He brought out that many public officers drink and fall to vote. The judge returned with the statement that prohibition could not be

enforced. "It can be enforced," O'Neil cried, "if men in public office have good, strong Christian hearts."

Economic aspects of the liquor question were brought into the discussion between the pair. There always has been bootlegging, gangs and racketeers, they are not a product of prohibition, it was declared.

The claim of the wets that more people are drinking now than before prohibition was quashed by the debaters, who also showed that savings accounts have jumped up now to a much higher level than they were before. He blamed the bad examples set by parents for many boys and girls drinking.

Dry Nation Victor A pertinent fact was brought out in the statement that the United States won more points in the Olympics than all the rest of the leading European nations which competed, while the United States has prohibition and the rest of the nations are drinking nations.

"There ain't no such thing as personal liberty," O'Neil cried, "because it stops where someone else's begins." People who are killed or hurt by others drinking have no such personal liberty, he claimed.

The immediate solution of the liquor problem is education, it was brought out; education of children scientifically to "lay off of liquor." The degradation of young girls through liquor and how they end up in red light districts was realistically told during the debate but the "five thousand fingers of young girls in hell" are pointing at young girls in hell are pointing at the bootlegger, it was brought out.

At the close of the meeting, the Rev. C. D. Hicks, president of the Board of Strategy, outlined plans for an active dry campaign here before the election, and appealed for 100 more volunteers to aid in precinct work.

ORANGE BOYS THROWN FROM HORSE TO AUTO

Two young Orange boys escaped serious injuries at 5:15 o'clock p. m. yesterday, when the Arabian horse they were riding ailed at an

automobile driven by Jose Limas, of El Modena, throwing the riders onto the machine.

Ansel Watson, son of Mr. and Mrs. A. B. Watson, of 665 North Tustin street, suffered cuts and bruises, while his companion, Ernest Mollica, son of Mr. and Mrs. Joe Mollica, of East Walnut avenue, suffered a deep scalp wound when his head crashed into the windshield of Limas' car.

The right hind leg of the horse was broken and the animal had to be shot. No blame was attached to Limas, it is understood.

The boys were treated by Dr. A. H. Domann and then removed to their homes.

STRAW BALLOT SHOWS HOOVER LEADS POLLING

NEW YORK, Sept. 23.—Straw ballots secured by a weekly magazine in a nation-wide presidential poll gave President Hoover 28,193 votes against 27,654 for Roosevelt in results announced today from five states. The returns were the first to be made public in the poll. Votes for the president were 46.73 per cent of the total cast, while Roosevelt's represented 45.84 per cent. The remaining 7.43 per cent was cast for five minor candidates with Normal Thomas, socialist, leading.

The five states in the voting were Indiana, New York, Ohio, Pennsylvania and West Virginia. Two, Indiana and New York, Roosevelt's home state, gave Hoover a plurality. Roosevelt led in the other three, including Pennsylvania, a rock-ribbed Republican stronghold.

A comparison of the returns in the actual vote four years ago showed Governor Roosevelt received 39.51 per cent of his strength from persons who voted Republican in 1928, it was said.

Of Governor Roosevelt's total vote, 44 per cent was Democratic and of President Hoover's, 41.03 was Republican, taking the actual 1928 vote as a basis.

The vote announced today was as follows, by states: Indiana—Hoover 1109, Roosevelt 907; New York—Hoover 14,933, Roosevelt 11,910; Ohio—Hoover 143, Roosevelt 1441; Pennsylvania—Hoover, 6142, Roosevelt 11,221; West Virginia—Hoover 1576, Roosevelt 2175.

TESTIMONY IN ARSON TRIAL IS COMPLETED

After introducing a statement in which Henry Eli is alleged to have admitted his connection with the fire that destroyed an apartment house in Huntington Beach and implicating John Rose and others, the prosecution rested yesterday in the trial of Eli and Rose who are accused of arson in connection with the fire.

The statement by Eli was introduced when Deputy District Attorney Preston Turner, in charge of the prosecution, called Assistant District Attorney S. B. Kaufman as a witness. Kaufman read a list of questions and answers taken during an interview with Eli.

Prior to making the statement Eli had attempted to secure immunity and was told by Kaufman, at the beginning of the interview that he could not and would not promise leniency in consideration of a statement and Eli, according to the transcript read into court records accepted that fact.

Reports "Cold Feet"
According to the transcript of the interview, read by Kaufman, Eli also admitted one previous attempt to fire the building. He said that on the suggestion of Rose he saturated mattresses in the apartment house with a mixture of gasoline and turpentine and, later, notified Chief of Police V. F. Keller that he had discovered an attempt to fire the building. He said that he informed the police because he got "cold feet." For that attempt, had it been successful, Eli said that he and another person, were to receive \$250 each.

The fire that did destroy the building was planned by Eli, he said. He threw a mixture of gasoline and turpentine about the building and advised with a man sent from Los Angeles to do the job, on the best method of lighting the fire. For this job Eli said he was to receive \$250. He said that after planning the job Rose went to Elsinore.

Sibley, called as a prosecution witness in the morning, became ill while testifying and was excused to be recalled in the afternoon. When he took the stand after the statement by Eli had been introduced he told of an alleged proposition made to him by Rose.

Sibley said that Rose told him he owned the building and would have it insured, burn the building and divide the insurance money with him. Sibley said that he told Rose he "didn't want that kind of money." The next night according to his testimony, Rose called him to his apartment and informed him that he was "only fooling" when he made the proposition and that if Sibley told anyone of the offer it would cause trouble and "My wife, Eli and myself will swear that you propositioned me."

Repudiates Statement
Eli and Rose were the only witnesses called for the defense. Rose testified that he was out of the city at the time of the fire and Eli repudiated his statement. He said that he was rattled at the time and made statements about things of which he knew nothing in an effort to gain his liberty.

He denied making the statement that he planned the fire. The majority of his statement to Kaufman was disposed of through his failure to remember details of the conversation.

Attorneys D. G. Wettlin and Chandos Bush, of Los Angeles, defense attorneys, closed their case after calling Eli and Rose to the stand. The case was continued until Monday morning when arguments will be presented the jury and Superior Judge H. G. Ames before whom the case has been tried will give his instructions to the jury.

WASHINGTON

DISARMAMENT

The curtain will be lifted shortly on a good disarmament setting.

The stagehand who fixed it is Senator David A. Reed of Pennsylvania. He handled the confidential presidential mission abroad which was to have been entrusted to the late James Francis Burke.

Those who have peeped behind the scenes claim France will be shown in a new role. Concessions are supposed to have been wrung from her which may bring the greatest disarming of modern times.

They whisper here that it will be a great campaign feather in Mr. Hoover's cap. They now think the ultimate agreement at Geneva will approximate Mr. Hoover's demand for a one-third cut.

Allowing for over-enthusiasm among the sources of this information, there still appears to be a possibility of real disarmament.

The Geneva conference will convene in a different atmosphere. Germany has diplomatically jockeyed France around to the point where concessions are necessary. The French stranglehold on the status quo in Europe has been broken.

Reed's job was to strengthen French belief in her security by our promise of cooperation. It is known definitely he did not promise anything more than cooperation.

The Hoover statement to Germany last Tuesday was a shrewd diplomatic move. It was designed to open the way for the von Papen government to compromise with France.

Mr. Hoover's name carries great weight in Germany since the moratorium. The German people would follow his ideas. They

would reject the same ideas from France.

Some observers thought the matter had been fixed ahead of time so the Hoover statement would permit Germany to stay in the arms conference.

How much debts are mixed up in this business is a matter of speculation. If France gives in on disarmament she will unquestionably expect to derive some debt benefits out of the bargain. That is quite possible in the present state of public opinion.

SUCCESS

Reed was chosen for the confidential mission because he is an ideal man. He was already in Europe when Burke died. He performed the ticklish task of handling the Japs at the last London naval conference. He did so well that this latest delicate job was thrown his way.

The Japanese situation probably entered into his discussions with the French. They were fairly close with the Japanese until recently. They may not be so close if this new disarmament deal goes through.

There are good reasons for believing Secretary of State Stimson did not know all Reed was doing. Apparently the Senator carried on his negotiations at this end directly with the President.

Not being an official of this government he had more leeway in his dealings than an ambassador would have.

CHANGE
The Berlin rumors that Ambassador von Prittwitz is to be replaced are apparently true. He will probably return from his European vacation only to pack his trunks here.

His views are a little too far toward the left for the present military dictatorship.

The chances are good that his job will go to the New York consul general, Dr. Klep, who has made a notable success there. He has friends in the Reichsbank.

NOTES
Some facetious fellow is circulating here a sign to be attached to

automobile license plates, reading: "Hoover for Ex-President" . . . Henry Allen's poll of Who's Who is an old political stunt. . . . It has been used in every campaign probably since Lincoln's. . . . A Republican victory is always indicated by it. . . . The best speech Treasury Secretary Mills will deliver on his western trip is based on the necessity for further economies. . . . It has some interesting figures on veterans' expenditures.

MAYORALTY

The Roosevelt forces would rather the mayoralty election went over until next year but they do not propose to be caught napping if it is ordered this fall. A campaign is quietly under way to bring about McKee's nomination by the combined Democratic organizations of the city. It would do the national cause no good to run him on a fusion or independent ticket.

In this connection Bainbridge Colby's published statement in favor of McKee is significant. Colby is close to Hearst and both Hearst and Bernard Baruch are prominent behind the scenes. Flynn of the Bronx is naturally very much in the picture also. McKee of Brooklyn is becoming more and more the key to the situation. If he decides to side with Flynn Tammany is out of luck so far as dictating the nomination is concerned.

It is very likely that McKee will play ball if given what he considers proper inducement. In view of the continuing importance of New York City to Roosevelt it seems probable that something will be worked out along this line.

An emblem manufacturer has received a tentative order for 50,000 buttons with the motto "McKee is good enough for me." He wanted to mount the emblem on Scotch plaid ribbon. The suggestion was vetoed on the ground that there are too few Scotch voters in the city. This is an indication that McKee backers expect an election

to be held this fall—but it is not conclusive evidence.

TAMMANY

There are signs that some astute political maneuvering is being done to arouse further dissension in Tammany ranks. Surrogate Foley's candidacy is being played up in certain quarters. Foley is close to Ahearn, who was Curry's chief rival for the leadership.

Comptroller Berry's candidacy looks like another red herring. Berry's hasn't a chance. McKee doesn't like him and he was continuously at odds with the Walker faction. He got his job through Smith's influence and might therefore be acceptable to Smith followers but the chief purpose in putting him forward seems to be to create a further diversion in Manhattan ranks.

A highly placed local Democrat without Tammany affiliations describes Tammany's present situation as that of a beetle bumping its head against a screen trying to find its way to a light. The leaders want to stay in right with the public but they're not sure what the public wants.

BOSTON

Boston's new bond issue is not proving as popular as its sponsors would like. Several Wall Street underwriting houses refused to join in any bids for it. Informed New Yorkers wonder how come Boston can borrow money more cheaply than New York City since the financial position of New England's first city is nothing to cheer about. The answer seems to be that Boston has no Hofstadter Committee.

SIDELIGHTS

They are saying here that Huey Long will cast three votes in the new Senate. . . . his own, Overton's and Mrs. Caraway's. . . . Senator Pat Harrison of Mississippi is established at New York Democratic headquarters. . . . He is kind of keeping an eye on things until Jim Farley gets back. . . . Early returns from New York towns in the Literary Digest poll have pepped up the Republicans and worried the Democrats.

Merchants Seek Appointment of Second Collector

A request will be made of the city council by the merchants division of the chamber of commerce to employ another license collector to assure the city of no losses in revenue from license money due the city, it was announced today following a meeting of the board of directors in the Santa Ana cafe yesterday noon.

It was the opinion of the directors, as expressed at the meeting, that although the present license collector is an efficient man, he is unable to take care of the entire city and the city is losing valuable revenue from uncollected licenses, Manager A. Cavall said today.

Cavall said the matter would be presented formally to the city council at a meeting of the official body in the near future.

Oakes Takes Over Insurance Agency

A newcomer to the circles of Santa Ana insurance men, is Maynard U. Oakes of Pittsburgh, Penn., who with his wife and their little son Jack, recently arrived to make their home here. Oakes has been accorded the local agency

of the Provident Mutual Life Insurance company, of Philadelphia, by his brother-in-law, James M. Cowles of Los Angeles, general agent for Southern California.

For the present Mr. and Mrs. Oakes are located at 304 East Surf avenue, Balboa, but expect to leave the beach soon to make their home in Santa Ana where the former has offices in 407 Spurgeon building.

SUPPORT FOR HOOVER URGED BY DR. WILBUR

LOS ANGELES, Sept. 23.—If development of the Pacific southwest is to continue unchecked it behooves Republican voters of this section of the nation to continue in

power an administration that understands their problems. Dr. Ray Lyman Wilbur, Secretary of the Interior, stated in an interview here yesterday.

The secretary added that in his opinion sober-minded voters realize this fact. "While California and the West," declared Secretary Wilbur, "have gone and are still passing through a period of confusion and economic adjustment, I see no widespread evidence of any desire on the part of residents of this section of the nation to remove themselves from the front seat in national government and turn over the reins to Texas and Tammany."

Questioned regarding his opinion of the present political situation Secretary Wilbur was sanguine of Republican victory in November.

"The present contest," he declared, "reminds me of the campaign of 1896 with McKinley and sound money on one side and Bryan and flamboyant promises on the other. It took the people but a few weeks of careful study to decide upon a plan of action in that campaign. They gave Bryan the applause and McKinley the votes. The same will hold true in November."

NEWS NOTES FROM SCHOOLS

Frances Willard

Uniform Dress Introduced

The girls at Willard this fall are wearing bright and colorful wash dresses for uniforms. They are all made after the same simple and practical pattern. All of the girls, except the present high nines, are required to wear them. There are five colors from which they may choose, blue, green, yellow, lavender and pink. This uniform was voted on by the girls and their mothers last spring. Every one feels that this new rule is both economical and practical.

Faculty Committees

Faculty committees for the current year were announced recently by Lyle B. Mitchell, principal of Willard. Mrs. Grace Lund, dean of girls, heads the committee on graduation and special programs. Those working with her are Miss Esther Jean Davis, Miss Ruth Langley, Arnold Lund, Miss Dorothy Broadway and Miss Helen Glancy. On the publicity committee, Miss Vera Jacobs will be in charge of the school news and Mrs. Golden Weston of special features.

Miss Veda Ball is chairman of exhibits committee. Assisting her are Miss Ruth Tandler, Miss Tessie Childers, Robert Horn and Mrs. Esther Oliver. Mrs. Maurine Scott, Miss Deborah Elliott and Miss Ruth Mueller comprise the honor society committee.

Student government will be in the hands of Miss Mary Jane Steel and Mrs. Grace Lund. Robert Horn, Ruth Langley and Norman Hicks will have charge of the auditorium.

The teachers' welfare committee is composed of Miss Fanny Steel and W. P. Read. Assemblies will be in charge of Mrs. Lund, Miss Helen Glancy and Miss Esther Jean Davis. Miss Louise Maas and E. D. Froeschle will control the banking, while counselling is headed by Miss Vanche Plumb, assisted by Mrs. Maurine Scott, Miss Veda Ball and Miss Fanny Steel.

The recreation committee has four divisions, one headed by Miss Maurine Mothes, whose assistants are W. H. Bracewell, Miss Vanche Plumb and Miss Fanny Steel. Another is in charge of Miss Evelyn Metzgar, and composed of Mrs. Mignonne Smith, E. D. Groeschle and Miss Louise Maas. The third committee is in the hands of Robert Horn, assisted by Arnold Lund, L. W. Archer and Norman Hicks. Miss Vera Jacobs heads the last committee made up of Mrs. Anita Whitaker, Miss Lillian Flitz and Mrs. Mable Budd.

New Teachers

There are five new teachers at Willard this year. Mrs. Mignonne Swales Smith, a transfer from Lathrop; Walter A. Egger, also from Lathrop, who divides his time now between the two schools, as does L. W. Archer, who taught in Willard five years ago since which time he has been assistant supervisor of physical education in Santa Ana.

Miss Ruth Tandler, the new art teacher, is taking the place of Miss Marian Libby who has been granted a year's leave of absence. Miss Tandler is a graduate of the University of California at Los Angeles. Mrs. Golden Weston, director of adult education, is a member of the social science department of Willard this year, where she teaches three classes.

New Books

New books of the Willard library, according to Mrs. Esther Oliver, librarian, are both interesting and attractive. There are 200 beautifully illustrated fiction and non-fiction books. They will be on display several days in the library before they are put into circulation.

A few of the many books are:

"Buff, a Colie" by Terhune;

"Mary's Neck" by Tarkington; "Janice Meredith" by Ford; "Sorell and Son" by Deeping; "Dr. Jekyll and Mr. Hyde" by Stevenson; "Tales of Sherlock Holmes" by Doyle; "Ring" by Hawkes; "The Beloved Vagabond" by Locke; "Freshmen at Arden" by Goss; "The Roach" by Santee; "The Jinx Ship" by Pease; and "Out of the Flame" by Lawnsberry.

Operetta Work Started

The Willard Junior high school operetta, which is scheduled for December 1 and 2, is entitled "Belle of Bagdad," according to Miss Esther Jean Davis, music instructor. This operetta has two acts, and 15 leading characters.

It tells the story of three young men who went to Bagdad in search of a girl, who is called Belle of Bagdad, they wish to secure her as a motion picture star. The three young men are arrested and sentenced to be executed for having cameras, which are not wanted in Bagdad. For some reason they are not executed and they find the girl they are looking for after many thrilling adventures.

Cafeteria Plate Lunch

According to Mrs. Rose Johnson, manager, Willard cafeteria is serving approximately 200 people every day, including the members of the faculty. It is also serving about 200 more who buy candy and ice cream.

Mrs. Johnson states that she is trying to have all the students buy a balanced meal. In order to do so a special plate lunch is served every day and offers three different foods planned to be well balanced.

Paddle Tennis Courts

There are four new paddle tennis courts this year at Willard, which, according to Miss Dorothy Broadway, girls' physical education instructor, will be available in about two weeks. The girls liked paddle tennis last year and Miss Broadway hopes that they will make use of the new paddle tennis courts.

Class Captains Elected

Girls' physical education classes have elected new captains this year. The H-9 and the H-8 have classes together with Evelyn Thorpe as captain. The H-7 captain is Lorraine Sweet; L-9 captain, Naomi Sands; L-8 captain, Frances Johnston, and the L-7 captain is Ena Bell.

Volley Ball to Start Soon

The first girls' sport this year is volleyball. Miss Broadway, girls' physical instructor, expects a good turnout for the teams. For after school practice all the girls from the seventh grade will come out together, all the girls from the eighth grade and all the ninth grade will come out together. There will be a first and second team from each grade, according to Miss Broadway.

Hunters Return From Trip North

GARDEN GROVE, Sept. 23.—E. J. Tobias, accompanied by his brother, W. H. Tobias, of Alhambra, and Warner Martie, of Sierra Madre, has returned from a 10-day hunting trip to Dominga Springs, about 20 miles from Chester, Calif. E. J. Tobias brought back a four-point deer.

On Sunday morning about 10 o'clock while helping the rangers hunt for a man from Oakland, who had become lost from his party, they found another man, J. W. Seacrest, of McFarland, who had been lost since 4 o'clock Saturday morning. He had been without food or water. He was given water and first aid treatment by Mr. Tobias and his party.

Julia Lathrop

Organization Officers

The various student organizations at Julia Lathrop Junior high are well under way for a year of interesting and constructive activities.

The following officers are now serving the student body: president, Carl Aubrey; vice president, Beverly Weindorf; secretary, Fannie Standiford; sergeant-at-arms, James Herrin; cheer leaders, Glen Cave and Preston Hawk.

The Every Girls' club, under the direction of Mrs. Grace Wolff, has elected the following officers for this term: president, Evelyn Mustel; vice president, Mary E. Dudley; secretary, Irene Wyckoff; treasurer, Helen Korai; reporter, Harriet Skinner; song leader, Marjorie Wonder; cheer leader, Anne Wakeham.

Commissioners Meet

The faculty commissioners with the citizenship and safety commissioners held a meeting during the past week at which time it was decided to carry out practically the same plans followed last year. These commissions include yard, shops, cafeteria, halls, justice, fire drill and assembly representatives, who will enlist the participation of as many students as possible. The following chairmen are now working on plans for the progress of their respective committees: yard chairman, Warren Mann; cafeteria, Marie Titchener; fire, Harold Jesse; assembly, Lester Bock; captain junior police, Carl Aubrey. Several other committees are not fully organized as yet.

Junior Guides Honored

In order to acquaint the new students at Lathrop more fully with the activities of the school, the Junior Guides entertained at a delightfully planned luncheon last Wednesday noon. Each guide was definitely responsible for several new students. Mrs. Webber and Mr. Glines sponsored the occasion and heartily welcomed the seventh graders to the various activities and organizations of the school. Marie Stewart honored the group with several musical numbers.

Novel Banquet Scheduled

Unlike the usual mothers' and daughters', or fathers' and sons' banquets, it has been decided to feature a banquet this year for all seventh grade boys and girls with their parents. Already a committee, with Mrs. Webber as sponsor, is planning an entertaining program. Mrs. Webber has announced October 14 as a tentative date.

Intermental Games

Home room athletic managers have been chosen to prepare and organize teams for the oncoming interclass events. The managers

met with L. W. Archer this week and have already prepared a schedule of intermental events which will take place after school. Each section is headed by a boy and girl representative and is expected that every class will have at least two teams which will stimulate considerable interclass spirit.

Home room managers for Hs are: Warren Mann, Mildred Beckman, Roger McCune and Ruth Lee.

Ls: Arthur Porter, Meryl Manderscheid, Bernell Ausmus, Edith Hapeman, Don Garrett, LeFay Morris, Gene Miller and Maxine Ogden.

Hs: Loyal Hengstler, Irene Kriehner, Mark Stewart, Lorraine Flagg.

Ls: Mitsuo Nitta, Helen Peterson, Sam Lockhart, Ellen Blake, Allen Patterson, Margaret Farmer, John Vieira and Mildred Jackson.

Hs: Billy Musie, Jean Rusch, Ralph Gill and Marian Gilbert.

Ls: Joseph White, Jacqueline Morrison, Albert Wright, Marjorie McCune, Chester Balcom, Nona Reimour, Hugh Nelson and Barbara Stevens.

P. T. A. Membership Drive

A spirited campaign for the annual P. T. A. membership drive is well under way. The classes are divided into two teams, the greens and the whites. Each class has elected a captain who acts as class room manager of the campaign. The captains of the winning side will receive a treat from the losing team.

Lagunan Named To Student Office At Menlo College

LAGUNA BEACH, Sept. 23.—John McFadden was elected sergeant-at-arms of the Associated Students of the Menlo junior college at a recent student election. It was reported here today. McFadden has been active in Menlo athletic affairs since he enrolled in 1931. He was a member of last year's football team and is, at present, out for that sport. SCHOOL AUTHORITIES EMPLOY ATTORNEYS

Announcement was made today from the city school administration offices that the law firm of Harvey and Harvey had been engaged to represent the board in the court actions filed by Bertha Briney and Lois Gould, teachers, who were denied contracts.

The teachers have sued to be reinstated on the payroll, claiming that they have attained permanent tenure and can only be dismissed for cause. The courts have granted writs to the teachers ordering the board to employ them or show cause on September 20 why they should not be employed.

W. F. Menton, deputy district attorney, regular legal advisor for the school board, has withdrawn from the case on the grounds of a former opinion he gave the board that the teachers have established tenure.

Mary L. Riker Dinner Hostess

LAGUNA BEACH, Sept. 23.—Remembering that Mrs. Russell Sage, wife of the noted New York financier, made her birthday anniversary a day for giving instead of receiving, Miss Mary L. Riker gave a dinner party at her home, 232 Coast Boulevard North, this week for two house guests, and a neighbor, whose birthdays occur in September, and some other friends. Each of the guests received a lovely gift.

The house guests were Mrs. Laura Grant, of Buffalo, N. Y., and her son, John Grant; the neighbor was Miss Nellie Ford Hills, sister of the late Anna A. Hills, noted painter, and the other guests were Dr. Jessie G. Forrester, founder of the Woman's hospital in Chicago, now retired and living in Laguna Beach, and Mrs. Maria Burtis, sister of Miss Riker, who celebrated her 90th birthday on July 27 last.

Miss Riker had baked a huge birthday cake and the 16 candles were blown out from four directions by the birthday honoree and the hostess.

WELFARE WORK STRESSED FOR CLUB MEMBERS

FULLERTON, Sept. 23.—With Mrs. Jennie M. Daniels presiding and bringing as her opening address to the clubwomen of Fullerton Woman's club the explanation of the theme, "Realizable Ideals," as "realizing ideals of life by doing those things well that are close at hand," the club opened its season last night.

Mrs. Daniels stressed the need for this year of accomplishing many things in welfare work, and in community betterment, in home activity, and all manner of service.

The first meeting was at the log cabin of the Isak Walton league, and was attended by the members and their families. Alfred Cookman, of Pomona, noted for activity in picturing wild life, and in lecturing on preservation of wild life, talked to the assembly, illustrating his talk with slides of camera pictures taken in his adventures in many parts of the western states, particularly in Grand Canyon, Yellowstone park, Yosemite and Death valley. His adventures were recorded by camera, and his lecture was entitled "Wild Life and the Camera."

The speaker presented two slides, one before and one after devastation by forest fire, and urged that all manner of means of fire prevention be taken.

A. C. Terrill, a friend of long standing, introduced the speaker. Previous to the lecture Mrs. S. W. Douglas and Miss Lillian Rivers led in singing.

Mrs. L. B. Harris and Mrs. Grace Ford received the guests. Announcement was made that Mrs. E. E. Smith, recently returned from Europe, president of the Orange County Federation of Women's clubs, will talk at the October 13 meeting, when members met at the home of Mrs. A. H. Koch.

HANSON AND WOODRUFF HIT DRILLING PLAN

SAN CLEMENTE, Sept. 23.—Ole Hanson, founder and builder of San Clemente, is heading a vigorous campaign against proposition No. 11 which will be put before the voters of California in November.

The main asset of California is her beautiful coastline, according to the former mayor of Seattle. "One might just as well live in Arizona as in Southern California, if the beaches are taken over for oil drilling purposes," Hanson declared today. "In planning San Clemente, we planned wisely. The sales contract and deed both deny the right to drill for oil here, but in case this restriction is broken by the courts, the party drilling for oil will receive only one per cent of all oil produced. In other words, it closes our Spanish village to oil drilling for all time and rightly so."

S. H. Woodruff, Dana Point developer, said in relation to the proposition: "This is the worst thing that has come before the people of our state for years. Think of it! Some folks in Huntington Beach and a few oil drillers want to repeal a state law, in order that they may still further pollute their beach. I understand that this same city has entered into a lease to drill 30 feet of highway."

"Have people really gone crazy? Our main assets in California are the beaches and the climate. It is the only place where both are found in perfection in the west. For the sake of a few dollars they desire to drive the entering wedge and open the beach to drilling."

"Every member of our organization is against it, not only because it will destroy Dana Point in case oil speculators should happen to seek oil, but because it destroys California's greatest asset—our beaches."

Mrs. C. K. Hinkle Committee Head

LAGUNA BEACH, Sept. 23.—Mrs. Clarence K. Hinkle, wife of the distinguished Laguna Beach painter, has been reappointed chairman of the committee on volunteer curators of the Laguna Beach Art association, by the board of directors.

"The success which has been shown during the experimental period has been due to the very generous help of those who have served on the committee, Mrs. William A. Griffith, Miss Alice T. Byrnes, and Miss Maude Robertson, also to the ones who have so generously given of their time and effort to act as volunteer curators. Without this fine co-operation, success would have been impossible."

Mrs. Hinkle has announced the following volunteers for next week, who will serve from 10 a. m. to 5 p. m.

Monday, Mrs. Joseph Essaye; Tuesday, Mrs. W. B. Palmer; Wednesday, Mrs. J. Earl Repine; Thursday, Mrs. Frances Atwell; Friday, Mrs. J. E. Bishop; Saturday, Mr. and Mrs. Hal West; Sunday, Mrs. Theodosia Ingham and W. Galen Does.

Among the noted painters who have served are William Wendt, A. N. A., William A. Griffith, John H. Hinchman, Karl Yens, Eleanor Colburn, Ruth Peabody, Ida Randall Boles, and Charles Partridge Adams.

DONS, TROBABES CLASH IN L. A. Grant, Milne In Speed Duel At Bowl

**FIRST FRIDAY
CARD EXPECTED
TO DRAW 4000**

Fresh from his match race victory over "Sprouts" Elder, world's motorcycle racing champion, at Modesto last Sunday, the sensational Hollywood daredevil, Cordy Milne, will head a group of 40 riders tonight at the Santa Ana Municipal Bowl in quest of new honors. A program of 15 races is scheduled and a crowd of 4,000 is anticipated by the promoters.

Unless all signs fail, the attendance will be the largest since racing was inaugurated in this section. Friday night always has proved more popular for baseball crowds than Saturday and the motorcycle officials believe that it will be so in the case of this latest of sports.

Action starts at 8:15. The referee is Al Kogler, the starter, Andy Anderson.

Cordy Milne, a steel-nerved Hollywood boy, expects to run wild on the seat of his special-built Pelton machine but he faces one real thorn-in-the-side in the person of Ray Grant, a Portland rider.

Grant, who hugs his motor like a long-lost relative and leans on the corners so that his pockets almost dip the proverbial sand, is the least pleased over the fact that Milne stole his thunder last week at the Bowl. On that occasion Cordy won most of the races and proceeded to break Grant's track record of 15 2-5 seconds by the mere margin of one-fifth of a second.

Tonight the two-man battle will rage and just to make things more interesting association officials have matched Grant and Milne for a two-lap race. It will be a case of who's who in Orange County motorcycle racing circles.

In addition to this pair such luminaries of the handiwork twist as Jimmy Wahn, the American five-mile champion; Bo Lisman of Long Beach, the giant of the field; Ted King and Dick Springsteen, the Santa Ana go-devils, and a host of others are enrolled. The entire motorcycle fraternity of the nation literally promises to swoop down on Santa Ana.

Tonight's program is one of the most attractive ever held in the Southland and promises to find many existing records being swept into the discard.

LATHROP HAS EDGE IN TUSTIN WORKOUT

BY JERRY PAGE
Julie Lathrop Junior High school showed considerable offensive strength playing Tustin's Hi Class team yesterday at Tustin. The Tustin team was so badly out-weighted, however, that the game was shortened. During the whole period of play, Lathrop had the ball.

Still went over for two touchdowns on off-tackle plays and McCune made several long gains around ends and on reverses.

After one quarter against the "C" team, Lathrop took on the

Tustin "B" for a quarter. Lathrop got the ball on its own 20-yard line and Shill and McCune carried the ball down to Tustin's 20-yard line on line bucks and off-tackle plays before the period ended.

The Spartan squad is small this year, but what there is appears good. Lathrop has a fast backfield, with McCune at quarter, Shill at fullback, and Mann, Boyle, Jessie and Miller at halfback. The line is heavy except the ends, Krisher, White and Lobo. Eatham, Garrett and Nelson play tackle; Sharen, Asumas, Joy and Boyd guards, and Harlin and Davis, centers. Davis also is used at full.

PREVIEWING SANTA ANA JUNIOR COLLEGE'S FOOTBALL TALENT

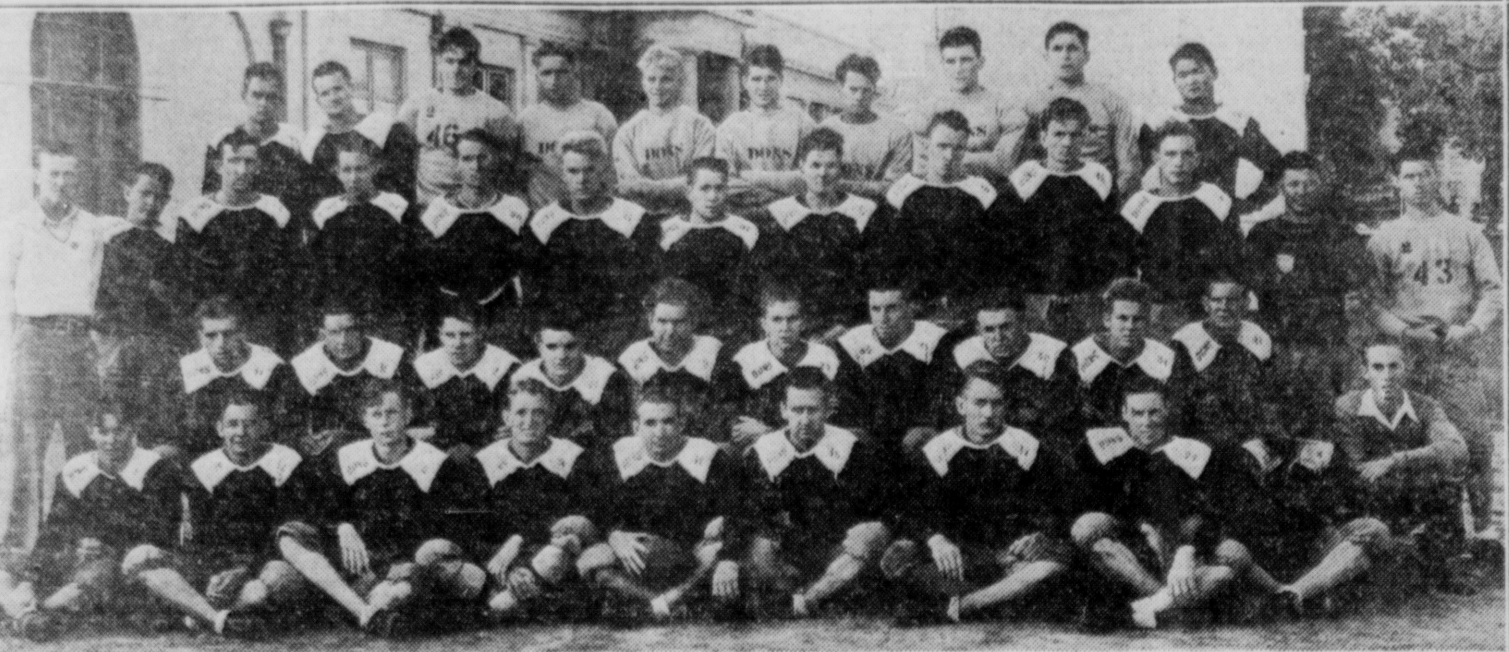

Here's a pre-season glimpse of Santa Ana Jaycee's promising football squad, which meets the Southern California Frosh at Olympic stadium tomorrow in a curtain-raiser to the Trojan-Utah varsity contest.

UTAH ARRIVES FOR STRUGGLE WITH TROJANS

LOS ANGELES, Sept. 23.—(UP)—Thirty-three strong, the University of Utah football team arrived here today, detoured to indulge in light practice preparatory to a game tomorrow with the University of Southern California here.

With the exception of Frank Christiansen, captain and backfield star, and three other players who are suffering from injuries, all members of the team were reported in fine shape.

The Rocky Mountain conference champions plan to rest this afternoon. Coach Ike Armstrong said. Five of the linemen who formed the greatest forward wall ever seen in the Rocky Mountain conference last season will start against the Trojans. They are Harold Davies and Pete Carlston, ends; Jack Johnson and El Howard tackles, and Walt McDonald, center.

Johnson, who is now in his senior year, has twice been an unanimous choice as an all-conference player.

Carlston, another six-footer, won an all-conference selection last season, his sophomore year. Carlston weighs 195.

The shift, which Jones has made so renowned on the Pacific Coast, is not new to the Utahans. Armstrong shocked opposition into submission with this device in 1926, the first of five years in which Utah won the mountain championship.

Five seniors were in the Trojan lineup that Coach Jones announced would start tomorrow against the Utes. They were Ray Sparling, end; Ray Brown and Ernie Smith, tackles; Orr Mohler, quarterback, and Dick Barber, fullback. Palmer will be at the other end, Stevens and Rosenberg at guard, Youel at center, Clemens at right half, and Clark at left half.

THOSE LONG DRIVES

Some golf professionals contend that, all things being equal, everything that enters into a good golf drive, the good big man can't hit a ball any farther than the good little man. They claim that beyond a certain point, a ball will not gain distance by increasing the impact behind it.

No Depression In Chicago During Series

CHICAGO, Sept. 23.—(INS)—Chicago's champion statistician rolled up his sleeves today, rubbed his hands and announced to a waiting world his discovery that a perpetual world series would be an effective method of salvaging the money-hoarding problem.

Based on the assumption that the Yankees and the Cubs lock horns here for three days in the impending series, the gross intake will be approximately \$750,000.

The circulation of money in Chicago will branch out into the following channels: Gate receipts, \$600,000; park concessions, \$24,000; railroads, \$15,000; taxicabs, trolley cars and other conveyances, \$6,000; ticket printing, \$12,000; hotels and cafes, \$30,000; wages to ball park workers, \$5,400; mailing expenses, \$6,000; programs, \$1,500; telegraph companies, \$45,000.

DICKEY BETTER RECEIVER THAN CUB'S MASKMAN

(This is the third of a series comparing the New York Yankees and Chicago Cubs, the pitchers. Tomorrow, the pitchers.)

BY GEORGE KIRKSEY
(United Press Staff Correspondent)
CHICAGO, Sept. 23.—(UP)—There's no argument over which of the world series rivals has the best catcher.

The vote unanimously goes to William Dickey, the New York Yankees' 26-year-old backstop who has come to be recognized as Mickey Cochrane's successor as the major league's greatest receiver.

No only is Dickey a great maskman, but he is a hard and timely batter. He became the Yankees' regular catcher in 1929 and has averaged 220 in nearly 500 games since then. In 1935 this year his batting average is .310.

The Cubs' catcher is Leo (Gabby) Hartnett, a big, strapping fellow who is completing his 11th season in the majors. He has batted .269 in 119 games this year.

Hartnett's "Vital Factor" The National League biographer writes of Hartnett: "He is one of the vital factors of the Cubs' success, a fine catcher, a dangerous hitter, and full of vim and energy, spurring his team on to the limit all through every game."

If Hartnett can measure up to those fine words in the world series, Bill Dickey may have to do some hustling to carry off the individual catching honors. Hartnett is the inspirational type of player who might rise to heroic heights in a short series.

Hartnett has played considerably better during the last few weeks under Charlie Grimm than he did under Rogers Hornsby.

SANTEN MEETS COAST'S MAJOR AD HERMAN IN ELEVENTH BUSY NEXT MAT GO UPSETS LIKELY

By RICHARD C. WILSON
(United Press Staff Correspondent)
SAN FRANCISCO, Sept. 23.—(UP)—Football teams of the Pacific Coast conference take their final warming up exercises tomorrow against non-conference opponents before the conference race opens next week.

Most of the major teams will meet opponents that should provide coaches an opportunity to give all of their players a chance to perform. But upsets occur frequently in football and tomorrow will find several "underdogs" battling for the glory of a victory over their high-and-mighty opponents.

Undaunted by the widely advertised ability of Bill Ingram's University of California team, Coach "Clipper" Smith confidently predicts his veteran Santa Clara Broncos will overturn the Bears at Berkeley tomorrow. The bears nosed out the Broncs 6 to 2 last year and Smith is returning with much the same team tomorrow. Anything may happen.

MISS CRUICKSHANK FACES MRS. HARPER

LOS ANGELES, Sept. 23.—(UP)—Jiro Satch, Japan's No. 1 Davis Cup man will oppose "Bunny" Austin, British champion, and Fred Perry of Great Britain will meet Giorgio De Stefani of Italy in semi-finals of the Pacific Southwest tennis tournament here today.

American tennis kings fell before the foreigners yesterday in matches which upset expectations, leaving the race for the tournament title entirely to invaders.

Keith Gledhill of Santa Barbara, defeated by Perry, was the last remaining American in the tournament.

Satch overcame Ellsworth Vines, national champion, by scores of 6-4, 6-4. De Stefani defeated William Allison, 2-6, 7-5, 6-1. Austin drubbed John Van Ryn 6-4, 1-6, 6-0.

By overcoming Elizabeth Dieke, 4-6, 9-7, 6-2, Santa Ana's Josephine Cruickshank reached the semi-finals of the women's singles and will play Mrs. L. A. Harper, defending champion, tomorrow.

Mrs. Marjorie Van Ryn and Alice Marble meet in the other semi-final bracket, the finals being scheduled Sunday. Miss Cruickshank and her doubles partner, Mrs. Van Ryn, defeated Ruby Bishop and Jane Sharp, 6-3, 5-7, 6-3.

Manager Vic Ruedy has indicated that Bob Rose, his lackadaisical No. 2 moundman, will work for Anaheim. Rose shut out the inland champions in the third game of the series. Having watched his three pitchers take a shelling throughout the series, Riverside probably will rely on Chet Briggs, youngest but most proficient member of the staff, to keep in the race.

Riverside supporters still feel their club has a chance to win. They remember the 1929 series with Long Beach in which the Acomas enjoyed a 3-1 advantage and then dropped three games in a row and the championship to Riverside's fighting pastimers. That marked the end of Long Beach supremacy in night ball. The club has been a cellar champion ever since.

WATCH W. AND J.
Football fans in the western Pennsylvania region will watch with interest this year the fortunes of Washington and Jefferson colleges. The reason is Hank Day, now coach of the Presidents, whose high school coaching record at Washington, Pa., was sensational.

HIGASHI TAKES HALL'S POST IN S. A. BACKFIELD

Seeking compensation for the four years in which they have been held scoreless, Santa Ana junior college gridders face the U. S. C. Freshmen at Olympic stadium tomorrow in a preliminary to the U. S. C. Utah game. Officially opening the 1932 schedule for both squads, the curtain-raiser will be called at 12:30 p. m.

The "spaghetti" shift, introduced to football last year by Coach Jones of the Southern California varsity, will be used by both sides, neither of which has experienced difficulty learning the new formations.

With the exception of Captain Jim Hall, halfback, and Jimmie Lash, end, Coach Bill Cook's Dons go postward in good physical condition, prepared for whatever Coach Stan Williamson's Trobables may offer. Hall and Lash, nursing an injured leg and broken nose, respectively, will not see action.

Santa Ana Backs Fast
One of the fastest backfield combinations in Don history will start against the Freshmen. Harold Welty, formerly of Orange, perhaps the greatest all-around back, will

be at quarter. Fred ("Porky") Bell and Hideo Higashi, halfbacks, and Wally Smith, fullback, are the other selections. There is a slight possibility that Bill Bouldin, former Anaheim flash, will receive the call over Welty. At any rate, both candidates will be used aptly. Cook indicates the Welty-Bell-Higashi-Smith arrangements, both offensively and defensively, has worked exceptionally well during practice this week.

Toby Greenow and Fred Brooks, ends, were slated to start but neither reported for drill yesterday so Tom Carlyle and Jack Stewart are in line for the opening call. "Gib" Meisinger, now a blocking halfback, may be used at a wing position, and it is not at all improbable that Higashi will be removed from the backfield at the last moment.

The right tackle position will be filled by Lucius Conkey, left tackle by either Jack Fredericks or "Bono" Koral. There is a possibility that both Fredericks and Koral will appear in the starting lineup. Koral at left guard.

Kluthe, Williams at Guard
Gil Kluthe and Claude Williams probably will receive the nod at guard. Williams, competing with LeRoy DeSmet, Garth Olsen and Rod Yould for the running guard position, has been the shining light of past scrimmages and if not included in the opening lineup it will be because Coach Cook wishes to start his heavier men. DeSmet, Santa Ana Hi regular last year, may replace Williams. Olsen and Yould should see action sometime during the second half.

The center position will be filled by either Bruce Hard, ex-Tustinite, or Ray Hoar, El Monte. Cook will not select his pivotman until just before the battle.

U. S. C. is expected to start a lineup of Duane Larrabee and Martin Crawford, ends; Pete Long and Art Dittberner, tackles; Valenzuela, guard; Jack Houglate, center; Cliff Probst, quarter; Gerard Burdard and Joe Hurst, halfbacks; and Ed Aigner, full. Alkman may replace Aigner. Larrabee, right end, is a Santa Ana boy.

Results of previous games in the Santa Ana-U. S. C. series, started in 1925, follow:
1925—U. S. C. 41, Santa Ana 0.
1929—U. S. C. 0, Santa Ana 0.
1930—U. S. C. 7, Santa Ana 0.
1931—U. S. C. 18, Santa Ana 0.

DISCS DIG UP ROCKS, JEOPARDIZING FOOTBALL AT BOWL

Nocturnal football becomes a reality here next Friday, with Bill Cook's Santa Ana Dons "kicking off" the new after-dinner entertainment at the Municipal Bowl—provided the opposition, Loyola's Frosh, is willing to take a chance on a field rather densely populated with stones, ranging in size from pebbles to boulders.

The Bowl's dirt floor was disced yesterday, and spit up so many rocks that for a time the possibility of football there, night or day, appeared absolutely hopeless.

Oldsters will remember that a brickyard once operated in what is now the north section of the stadium, and on departing, it seems, left behind not a little of its innards.

But Cook says his dauntless Dons will take a chance if the place is cleaned of the sizeable stones and, which is as important, if Loyola's coach, Bill Sargent, is willing to gamble against abrasion, too. Cook wants Sargent to inspect the field before a definite decision is announced.

The city will rig up another illumination pole at the north end of the Bowl and readjust the southside arcs for purposes of vision. Portable bleachers will be strung along one side of the plant, too. The city has voted \$75 for the work, and will collect 10 per cent from the "trial game," but a flat \$50 rental fee thereafter if night football proves a successful experiment. The college will furnish the goalposts.

HI TO HAVE NIGHT GAME

Santa Ana Hi will play a night game this year, too, only the setting will be away from home.

Arrangements have been completed whereby the champion Saints will meet Herbert Hoover Hi under the arcs of Navy field, San Diego.

WORLD SERIES CLOSEUPS

The other half of the greatest, home-run combination that ever poled baseballs over the wall is Henry Louis (Lou) Gehrig. Perhaps you've heard of him.

Lou isn't the greater half, but only because he is coupled with Babe Ruth.

Alone or together, the national pastime never has seen their equals. When Lou joined the Yankees in 1924 at New Orleans, he had \$12 in his jeans. He nursed those 12 bucks through the entire training season, without knowing whether he would make the grade. As a matter of fact, he lasted but 10 games with them, being shipped off to Hartford in the Eastern League. But in 1925 he made good, and has continued to fill the bill.

The proudest day in Gehrig's life was not when he crashed four home runs in one game this season, but when he presented that, a new home in New Rochelle to his mother and father and drove them up there from New York in a new car, another gift to them.

Lou admits that he was lucky to become a major league star. He probably would have been a truck driver, perhaps the head of a trucking concern by now, if his mother hadn't worked herself into poor health to save money for his schooling. When he got as far as Columbia University, he found that he could play baseball.

Here's one: the most deeply imprinted athletic event in Gehrig's mind is five minutes of a football game, between Columbia and Colgate in 1921, in which he played.

"When the whistle blew I started a battle with Welch, the All-American tackle," Lou tells. "When they carried me away five minutes later I had two black eyes and I thought I had a broken nose and a mess of busted ribs. On the way out, they carried me past my father. He took one look at me and said, 'Why, you damn fool!'"

Gehrig is the iron man of modern baseball. He hasn't missed a Yankee game, regularly scheduled, since 1925. A little more than a year ago he played his one thousandth consecutive game. A few weeks ago he passed Joe Sewell's feat of 1102 consecutive games. And if his durability holds out, a year from this time will find him holder of the major league consecutive game record, well beyond Deacon Scott's mark of 1307 straight games.

The monkey's tails seemed very strong and Duncy said, "Naught will go wrong while I am in this dandy swing, as long as I hold tight."

"I know the rest of you all yearn to swing. When I have had my turn, I'll let you try your luck at it. Watch me! I'm swinging right."

"It isn't your fault," Coppy cried, "that you are having such a ride. Gee, give the monkey credit. All you do is have the fun. They have to swing you to and fro, and my, how they can make you go. I will be glad to take my turn when your long turn is done."

Just then wee Scouty simply roared when one monkey let go of the board. This toppled little Duncy, but he landed on his feet.

At first it startled him a bit, but then he cried, "How can I sit upon a swing when it goes pop? That isn't any treat."

"Well, son, the monkeys were simply having fun. I'll promise that the next to ride will have no chance to rave."

So Windy cried, "I'll have a try," and so the lad was swinging high. The others smiled when shortly he had nerve enough to wave.

Just then a little lioness ran by and Scouty said, "I guess I'll show you lads a little trick. A leopard I will make."

"Give me some paint and I'll have lots of fun just dobbing on big spots. Although I'll do a good job, very little time 'twill take."

They caught the lioness and then brave Scouty went to work again with paint the zoo man gave him. "I am pretty good," said he.

He dobed the big spots here and there and seemed to do the task with care, but it looked very funny and the Tinsies laughed in glee.

(Duncy has a strange experience in the next story.)

Members of Jack Fisher chapter, Disabled American Veterans of the World War, have accepted an invitation to attend a special meeting of Los Angeles chapter,

No. 4, D. A. V., Monday evening at Patriotic hall, Los Angeles, at 8 o'clock.

Monday has been designated "Jack Fisher Chapter Night" as a token of the mutual friendship existing between the two chapters. This is the first meeting set aside in honor of a chapter and Orange county veterans are expected to show their appreciation of this honor by sending a large delegation to Los Angeles next Monday.

George H. Gold, chairman of the visitation committee, reports that some 80 members of the Jack Fisher chapter and auxiliary will be present to acknowledge this invitation.

Earl B. Hawks, commander, will

express the chapter's appreciation to their Los Angeles comrades and extend a general invitation to some to Orange county in the near future in reciprocation. Other well known veterans planning to attend Monday's meeting include, H. O. Rasmussen, Louis A. Riehl and Harry S. Pickard, all past commanders of the Jack Fisher chapter, Frank Wolters, Fay F. Shirley, Harry D. Edwards, George H. Gold, Virgil Marr, Van Leonard Brown, David R. Day, James R. Thompson, Jules Markell, James C. Wylie, Perry L. Cooper, B. L. Chittenden, Albert H. Some 60 recruits are expected to be present to receive the obligation. After this ceremony the evening will be devoted to entertainment and refreshments to give all members an opportunity of meeting their new comrades and extending them a hearty welcome into the Jack Fisher chapter.

LAGUNA BEACH, Sept. 23.—G. W. Day, 27, Huntington Beach, was fined \$150 by City Judge M. Lestrang in traffic court Wednesday on a drunk driving charge, to which he pleaded guilty. The complaint, made by Traffic Officer E. B. Pyke, was brought under the penal code, which makes the offense a misdemeanor if no one has been injured.

Day was arrested in the business section and Pyke's attention was drawn to him when he turned around in the middle of the street and nearly caused a smash-up, according to the officer. Judge Lestrang gave Day permission to pay the fine in installments, but tacked on a 90-day jail sentence, to be suspended if the fine is paid in full.

Strong Endorsement Of Wright Act Adopted By P.-T. A.

ACTION TAKEN AT MEETING OF COUNTY GROUP

Significant action taken yesterday at the meeting of the Fourth district (Orange county) Parent-Teacher association, in the Santa Ana Presbyterian church, was the adoption of a strong endorsement of the Wright act, California's law for enforcement of prohibition.

This action was taken on presentation of a resolution by the resolution committee, Mrs. J. V. Kelsey, Mrs. G. H. Goodale and Mrs. W. T. Klrven, reaffirming the stand previously taken by the district endorsing the Wright act, which liquor interests are attempting to repeal at the November election.

The county P.-T. A. organization, which is concerned with the welfare and development of children under proper conditions, combined a school of instruction with the first fall meeting, in the sessions held at the First Presbyterian church under the direction of Mrs. R. W. Marvin, of Anaheim, district president.

Another resolution adopted referring to communism called on local associations to appoint committees to work with a district committee to study the group activities of local schools and to make a survey of books in the accessible libraries. The district committee appointed by Mrs. Marvin for this purpose is: Mrs. Carl Sutton, Orange, chairman; Mrs. Gladys Barnett, Newport Beach; Mrs. W. T. Klrven, Garden Grove; Mrs. Florence Summers, Newport Beach; and Miss E. Kate Roe, Anaheim.

The afternoon session continued the interest of that held in the morning hours when Mrs. J. D. Campbell, legislation chairman, discussed "Pending Legislation," and Dr. Regina Westcott-Welman, regional director of parental education, outlined her plans for school year activities in Orange county.

State Officer Speaks
Mrs. W. A. Price, junior past president of the California Congress of Parents and Teachers, opened the formal program of the afternoon with a thoughtful address on "The Relation of the Local to District, State and National Organizations."

In her talk, Mrs. Price emphasized the fact that without local associations there would be no district organization, no state, and therefore no national, so she declared that it was plainly apparent that the local led in interest and importance, and it was a clear case in which "the first shall be last, and the last, first."

The cooperation between the various groups was exemplified according to her explanation, by the small dues which go from each member to the National, and which bring in return, the leaflets and handbook that are of such great help in solving and clarifying P.-T. A. problems. She pointed out the large number of these leaflets which come to California, far in the lead among the states in point of membership with its roster of 170,000. Illinois ranks second among the states.

Mrs. Price also explained the

manner in which the 47 state presidents hold their conferences, taking valuable results of such meetings, back to their state associations in the same manner that local presidents return from district conferences with information of value to their members.

Conduct Model Meeting
Following this illuminating talk Mrs. C. H. Turner of Redondo Beach, first vice president of the California Congress and former state parliamentarian, conducted a model business meeting with the assistance of various women from the district, including Mrs. J. H. Farnen of this city, Mrs. F. M. Bungay of Anaheim, Mrs. Hell of Westminster, and several others.

This not only exemplified the manner in which such a meeting might be conducted with due regard to form, but also brought out many interesting details of correct parliamentary procedure, including the difference between reconsidering and rescinding motions, and various similar points.

P.-T. A. workers from every section of Orange county were assembled for the day, and were entertained at luncheon by women of the Santa Ana City Council.

P.-T. A. of which Mrs. Roy Beall is president.

ISSUE PERMITS FOR TWO NEW HOMES IN S. A.

Two new homes, to cost a total of \$11,000 are to be erected in Santa Ana immediately according to permits which have been taken out in the city building inspector's office.

G. R. Burkett of Santa Ana is to erect an eight room stucco and frame dwelling at 2425 Riverside drive, the new home to cost \$7500. It will be a two story, of Spanish architecture.

J. C. Gardner, of 512 West Fifth street, will be the owner of a new home to be built at 2421 Poinsett street. It is to be built by Jasper Farney and will have six rooms. Its cost will be \$3500, according to the permit taken out.

FILE SUIT TO MAKE CHANGE IN ARGUMENTS

A suit to compel Secretary of State Frank C. Jordan to issue a supplementary voters' pamphlet with corrected arguments for Proposition No. 11 on the November ballot will be filed in the third district court of appeals immediately, it was announced yesterday in Sacramento by Senator J. M. Inman.

Inman is representing the Huntington Beach Improvement association, sponsors of the measure authorizing the city of Huntington Beach to lease tidelands for oil drilling purposes.

The association claimed that the official arguments for the measure, written by C. G. Ward and Willie H. Warner, contained misstatements of fact.

ORANGE COUNTY DAY AT FAIR ATTRACTS MANY

Orange county residents flocked to Los Angeles County fair in Pomona to the tune of several thousand today and took part in the festivities arranged in their honor for the big exposition which is a combination of Orange, Riverside and Los Angeles counties.

Special guests of the day were members of the Thirty-second district agricultural board under whose auspices the Orange county fair is staged.

Official delegations were present from Santa Ana, Anaheim, Fullerton, Tustin, Olive, La Habra, Brea, Orange, Balaioa, Newport and Laguna. Special interest was attached to the day from the fact that there are a large number of exhibits in the various departments from Orange county.

Hundreds of high school agricultural students from the various counties of the state as far north as San Joaquin county were on the fair grounds today for the first of a two-day program of camp school and competitive events. Garden Grove sent representatives to this affair.

The gathering, known as Camp Condee and sponsored by the state department of education, began this morning with a supervised tour of the livestock, poultry and machinery exhibits followed by an examination in which ten high school students received awards. At the night horse show tonight the students will be guests of the fair association.

Saturday morning the Future Farmers will hold judging contests in dairy cattle, beef cattle, hogs, sheep, horses, poultry and ornamental plants. Attendance at the races Saturday afternoon is also scheduled.

At the races Saturday afternoon there will be the 2:15 pace, 2:20 trot and two running races. Saturday night will see the final night horse show as there will be racing on Sunday night. Among the classes to be shown are the jumpers, ladies single ponies, 5-gaited stake, gig horses, stock horses, Shetlands and harness horses.

value of organized, national outlets as their best net returns to Los Angeles came from eastern sales, raising the average price received on this coast considerably. Only carlot shipments will be made next season, thereby saving almost two-thirds of the entire shipping costs compared to express rates, which are almost prohibitive at current prices.

and other countries from disaster." Concerning international affairs, Dr. Dexter said that in his talk with the president, he felt that the Kellogg peace pact had been one of the biggest things accomplished, and that the "Hoover document" will be known in half a century as one of the most formidable of history making acts.

Fair Deal For Veterans
"No man in all the world is more interested in the ex-soldier than is President Hoover, and although he is a Quaker and wants peace, he is a fighting Quaker," the speaker said concerning the stand of the President on the bonus bill. He declared the President will do all in his power to give the veterans of the World war a fair deal, that can be done without adding a burden to those on whom the burden does not belong.

DR. DEXTER URGES ELECTION OF HOOVER AT MEETING OF YOUNG MEN'S REPUBLICAN CLUB

Dr. Walter Dexter, prominent educator and president of Whittier college, who recently spent some time as a guest of President and Mrs. Hoover, addressed a large audience at a meeting of the Young Men's Republican club of Orange county at Fullerton last night and urged the re-election of Herbert Hoover so that he might work toward reconstruction of the nation.

During his address Dr. Dexter outlined President Hoover's replies to questions on four important matters which he asked while a guest of the Hoovers. The questions concerned the president's stand on finance, international affairs, bonus for World war veterans and prohibition.

The speaker spent a week and with President and Mrs. Hoover at their camp in the Blue Ridge mountains and declared the simplicity, integrity, honesty and human kindness, which marked all that pertained to that first home of the land, should be the grounds on which Republicans build to place Hoover in for another term of office that he may work toward reconstruction of the country.

Acts In Crisis
Dr. Dexter told of one instance in a great financial crisis, when it was necessary to subscribe to millions of dollars in bonds, and when the subscriptions were many millions short, that the President, with the secretary of the treasury, worked personally at telephones, when the issue seemed doomed to

failure, and secured the money, and declared that "in times of great emergencies we need able men like Mr. Hoover who can work to meet such crises and keep this

Schedule Meetings
Homer Chaney presided at the meeting. Other speakers were Senator Nelson Edwards, who declared the best way to restore confidence is to re-elect Hoover; Letroy Lyons, candidate for supervisor from the third district; Ted Craig, assemblyman from this district, and Howard Irwin, county Republican chairman. Robert Brown of Santa Ana sang a group of solos.

Future meetings of the club include a \$10 barbecue dinner at the Phil Stanton home on Brookhurst road October 1 at 4 p. m. to raise a campaign fund.

Evening meetings planned are at Laguna Beach Oct. 3; Santa Ana, Oct. 10; Anaheim, Oct. 17; Orange, Oct. 24, and Huntington Beach, Oct. 31, with a final mass meeting at Santa Ana Nov. 4.

PLAN BONFIRE
The high school board of control, in a regular meeting this week, discussed plans for a bonfire, to be held preceding one of Santa Ana's league football games. Serving on the student council this semester will be Allen Kilder, president; Frances Conrad, Miss Jackie Myer, Harry Anpling, Floyd Montgomery, Harry Bradley and Miss Margaret Finley.

There are 40 honor students now attending Santa Ana High school, and several others are expected to be eligible for membership after a survey of last semester grades is completed, it was revealed today by school authorities.

Twenty-seven of these students are active members of the honor society. The other 13 belong to what is known as the honor roll. Membership in the society is considered the highest honor a student may obtain.

Efficiency Brings Lowered Costs In Selling Avocados
Although handling 18.5 per cent more avocados this season than the corresponding first 10 months of last season, increased personnel efficiency and methods reduced the handling costs actually 17 per cent since last season.

From 11 cents per 13-pound flat packed, the cost this season is less than eight cents. A 23 per cent decrease in general exchange handling costs has been made since a year ago.

With the Calave Growers' predicted now to handle as much fruit next season as this, due to the unprecedented 720-acre membership increase this summer, new efficiency records are expected to be made next season.

CITY OFFICIALS WILL ATTEND LEAGUE MEET

Mayor Paul Witmer and members of the city council will attend the state convention of the California League of Municipalities to be held next week in San Diego.

Councilman J. L. McBride and City Engineer DeWitt Dudley will leave here for the opening day's session, Monday. It is understood, and Mayor Witmer and Councilmen William Penn and E. G. Warner will attend the convention on Tuesday.

Mayor Witmer said today that the expense of the trip by city officials to the convention will be met by those attending as the city has no money for such excursions. He pointed out that nothing had been placed in the year's budget to send councilmen to conventions.

Beverly Hills Affair Is Compliment to Mrs. Frank Ey

It was Mrs. Frank Ey's privilege Wednesday to be honored guests at a luncheon of marked charm, given in the Beverly Hills home of Mrs. John Gilligan on Wellington Road in that city.

Mrs. Ey motored in from her home at 211 East Ninth street, to meet the other guests, who included two in addition to the hostesses who had served as Olympic hostesses. These were Mrs. Reinhardt and Mrs. Jacobs, the latter representing New York. The three told many interesting details of their dinners and other social affairs which had been given to complement entrants in the famous games.

Following the beautifully served luncheon at 1 o'clock, Mrs. Gilligan's guests devoted the afternoon to contract, in which Mrs. Ey, the honoree, was fortunate in making high score and was awarded the prize.

It is the intention of Mrs. Ey to entertain several members of the little guest group at a luncheon and bridge in her home, the beautiful old Ey homestead, at a late October date.

Betrothed Couple May Select November For Nuptials

The interesting news of the engagement of Miss Cornelia Bode, daughter of the Rev. and Mrs. A. C. Bode of Orange, to Bonney Sylvester Jr., of Santa Ana, was revealed recently at an informal bridge party in the Bode home. Decorations for the affair were carried out in pink and green, and in tiny bridal boxes at the tables when the refreshment course was served, were four cards inscribed with the words "Engaged, Corney and Bonney."

Both Miss Bode and Mr. Sylvester are employed at the Santa Ana Building and Loan association and it was through their work there that the romance developed which resulted in the engagement. Mr. Sylvester is the son of Mr. and Mrs. Bonney Sylvester of Escondido. The wedding date has not been set but the event will take place sometime in November.

Church Group Holds Informal Affair

Members of the First Congregational church joined in another of their pleasant social gatherings Wednesday night when they were guests of Miss Alice Plummer in her home, Costa Mesa. The evening was passed informally amidst a colorful setting provided by bouquets of fall flowers.

A large group from this city attended, in addition to members of the local church who make their homes at Newport and Balboa Beaches and Costa Mesa. The Rev. and Mrs. P. F. Schrock accompanied the local guests.

Various Events Listed On Ebell Calendar Of Social Life

Carrying the banner of cheerfulness and enterprise, Ebell society members go marching gaily into their new club year with plans for general meetings of such pronounced interest, and section social events of such charm, that everything seems to point to a complete rout of the forces of depression that have seemed to threaten club life and curtail its activities.

Monday Program

For next Monday afternoon, Ebell women may anticipate an illustrated travel talk dealing with a section of the globe that is prominent in all world news, for Alfreid Flude, journalist, lecturer and traveler, is to present the address, "From Vladivostok to Peking."

It was during the World war that Mr. Flude served in Siberia, China and Japan, and in this particular lecture, he will tell of his trip into China by the inland route to secure supplies. Going with no interpreter, he spent many weeks in strange cities and villages, and his experiences are embodied in the address, illustrated by colored lantern slides from his own pictures.

Formal Evening Affair

After a long series of informal club gatherings, the Modern Literature section of Ebell society will feature a formal evening affair of the new club year with a general card party to be held in the peacock room of the clubhouse on Friday night, September 30, with playing to begin promptly at 8:30 o'clock.

Mrs. Hugh J. Lowe, section leader, will have the co-operation of all the 25 members of this group, in making the party a success, not only from the point of the sum which the women hope to raise for their club projects, but with regard for making the evening one which every guest will recall as an outstandingly pleasant event.

Mrs. John Ball as general chairman will be assisted by Mrs. Edwin T. McFadden, Mrs. Herbert Miller, Mrs. Robert Alexander and Mrs. Lloyd Chenoweth. Mrs. McFadden and Mrs. Lowe will have charge of tickets, so those wishing to arrange table groups and "parties within a party," may secure tickets and table reservations from them.

Since both auction and contract bridge will be played, section members have decided upon the plan of awarding a prize to the player scoring high at each table, and these gifts are promised as quite attractive and desirable. Refreshments will be served to conclude the friendly hospitality planned.

Day Nursery Party

With September 29 named as the date for the affair, members of the Ebell Day Nursery board are making plans for their first benefit card party of the year, to be held at 2 o'clock in the afternoon in the lounge of Ebell clubhouse.

Both auction and contract bridge are to be played, and there are to be attractive awards, it has been announced by the committee in charge.

Mrs. Lena G. Hewitt, chairman of the board, is general chairman of the event. Mrs. J. E. Liebig is ticket chairman; Mrs. F. E. Farnsworth, Mrs. C. V. Newman and Mrs. O. H. Umberham, refreshments committee; Mrs. Rowland P. Yeagle, Mrs. Roy Peterson, Mrs. W. D. Runney and Mrs. E. F. Museum, decorations and prizes.

Plans for Initiation Made at Dinner Meeting

Proceeding their business session Wednesday night, members of the Social Order of Beauceant held a benefit dinner in Masonic temple, with Mrs. Geraldine Miller of Los Angeles presiding as hostess. A large group of members and friends attended.

The business meeting was in charge of the president, Mrs. C. S. Dunphy. It was decided to have initiation at the next meeting, Wednesday evening, October 5. Several members of the Santa Ana Beauceant expect to attend the Supreme assembly to be held September 28, 29 and 30 in Pasadena.

Co-Hostesses Join in Entertaining for Bride-elect

Miss Elizabeth M. Hoffman, who in October is to become the bride of George Sackman, was honored guest at a charming shower given last night when Mrs. George Schade and Mrs. Robert Heffner joined in entertaining in the latter's home, 1527 West Eighth street.

Both hostesses were charmingly gowned in black frocks of semi-formal design, wearing floral corsages of pink petunias tied with yellow tulle. Miss Hoffman's corsage was of roses and gypsophelia, and was adorned with pink and white ribbons.

As guests arrived, they placed their gifts for the honoree on a decorated table overhung by an umbrella of pink and yellow roses, with graceful streamers in the same colors. Miss Hoffman opened the packages early in the evening, and found that they contained lovely gifts in her chosen pattern of silver.

Tables were soon made ready for games of bunco, with Miss Hoffman winning the attractive first prize. Miss Leona Schade held second high honors.

The charming yellow and pink motif was further observed during the refreshment hour, when tables were appointed with dollies, nut baskets and tall tapers in fluffy crepe paper holders. Dahlias and gypsophelia were the flowers used throughout the home in carrying out the yellow and pink theme.

Those sharing the hospitality of Mrs. Heffner and Mrs. Schade were the honoree, Miss Hoffman, her mother, Mrs. O. M. Hoffman, and Mr. Sackman's mother, Mrs. J. W. Sackman; Mrs. Donald Edwards, Miss Marie Rasch, Miss B. Woodward, Mrs. E. M. Hart, Mrs. G. Hawley, Miss Gertrude Hoffman, Miss Juliette Blaylock, Miss Juanita Freitas, Miss Eva Deane, Miss Leona Schade, Mrs. Clarence Siemonsma, Mrs. Park of this city, and Mrs. Corinne Carver, Pasadena.

Church Societies

World Study Group
The World Study department of the Women's Union of the First Congregational church met Wednesday in the home of the Rev. and Mrs. P. F. Schrock, 205 West Twentieth street, for an interesting program on Germany.

Mrs. George D. Griffith of Pleasanton, Calif., presented "History and Geography of Germany" as her topic, treated mainly of that period during which the independent Teutonic states were developing a national consciousness, and were finally fused into an empire by Bismarck.

Mrs. Griffith used an outline map, which later served Mrs. John Tesmann as she gave an account of "Germany Since the World War." Mrs. Tesmann presented a vivid picture, illustrating with personal accounts given her by German friends. She told of conditions of living there during and after the war, giving a clear idea of the reasons for the present political conditions in Germany. She also discussed communism in Germany.

Nazarene Young People Compliment Departing Society President

Among recent social events of the Nazarene Young People's society of Santa Ana was the delightful farewell party given in honor of Mr. and Mrs. Raymond Wise and their daughter, Barbara Jean, at the home of Miss Ruth Sweeney, South Center street, Orange.

For the past year and a half Mr. Wise has very efficiently served as president of the Young People's society. In a few days however, he is planning to depart with his family for Mitchell, S. Dak., where he has been called as pastor of the Nazarene church of that city.

There was a representation of 62 young people at the party. The Rev. C. E. Waddle, pastor of the Nazarene church, and his family also were present. Miss Sweeney served as a very capable hostess to the large number and conducted several interesting games, after which refreshments were served.

During the course of the evening Lester Shambaugh was elected vice-president of the society; and Miss Beulah Martin, former vice-president, became president.

Autumn Gardening As A Morning Diversion

I wish that I could hold fast forever to these glamorous autumn days. Invariably I am up at 6 o'clock, long before the family is astir. After coffee I get into gardening clothes, perhaps the most disgraceful but most comfortable "ensemble" in this city, and a couple of hours' work in the garden puts me in trim for the rest of my busy day.

This morning I was revamping the back of a very low terrace that has now looked right. I had the rocks removed and a gentle slope prepared for snow-on-the-mountain. If you do not know it, it is that close-grown mat of rock plant that blooms early in spring and resembles a snow bank. I put in an occasional plant of Allium Saxatile to break the bank of white with its soft yellow blooms. They bloom at the same time, happily.

But these plants have their day and then no more, and the bank wouldn't be too lovely later in the summer, so a generous sowing of California poppies went in with the rock plant. The delightful part of such plantings is that they are fairly permanent and the woman with even a small garden is thankful for that.

Against a sunny side wall of the house I am going to put an espaliered peach tree; do you know that little when applied to trees? It means grown flat so that it is trained against a lattice or a wall. These trees are not only decorative, but produce superb fruit. They are not too expensive, either.

Salt, pepper, paprika
Toasted fine crumbs.

In green corn time you wouldn't think of using canned corn, but when the corn season has gone by a good grade of canned corn will do very nicely for these little vegetable oysters, or pancakes, to be exact.

Assuming that green corn is our choice, shave it from the cob, add the beaten eggs, seasonings, and dissolved soda. Finely rolled toasted crumbs must be worked in to make a batter just thick enough to drop from the spoon tip. Fry in deep fat or in the skillet, using plenty of hot bacon fat.

Serve with broiled fish and tartar sauce.

A favorite way in our house to prepare potatoes when in a hurry is this:
Slice the required amount of potatoes into a small skillet, over them cut fine a small handful of parsley, season with salt and pepper and add enough thin cream to come just to the top of the potatoes. Set over a low fire and simmer until the potato has absorbed the cream. Do not allow to stick and brown.

SUM'SHUS HOT DESSERTS has but today and tomorrow on the free list . . . next week it goes into "durance vile" and costs you 2 cents plus the usual stamped, self-addressed envelope. Why not get the leaflet this week, when only the s. s. c. is required?

Saturday's recipe will be Spanish lamb, a grand way to use up scraps of roast leg of lamb.

HOW TO MAKE FLUFFY BISCUITS

It depends on several things—but largely on one thing. With the right baking powder you can't make many mistakes. A Cream of Tartar baking powder makes tiny fluffy bubbles in your biscuit batter. They become tiny fluffy airholes in your biscuits.

Cheap substitutes for cream of tartar make big bubbles—then make heavy airholes. Use Schilling for fluffy biscuits. . . .

SOCIETY HEAD GIVES ADDRESS ON PEACE WORK

ORANGE, Sept. 23.—The "Victories of Peace" was the topic discussed from the social, educational and spiritual angle by Mrs. Mary J. William Ewing Northrup, field secretary of the national organization at the annual dues paying luncheon of the Women's Home Missionary society of the First Methodist church yesterday. Mrs. Northrup stressed the need of prohibition throughout her talk.

Mrs. Northrup said that she believed peace could be brought to the world only along social, educational and spiritual lines. Voters must be educated, the speaker said as she reminded her audience that thousands of mountaineers in the southern mountains, 14 or 15 million Negroes and many other citizens can neither read nor write. She called attention to the fact that children of Japanese and Chinese may all vote and she declared that there is great need of education among all of these peoples.

Because the temperance people believe they had gained their point in having the eighteenth amendment enacted, they afterward rested on their oars, Mrs. Northrup said. "We have failed to keep the provisions of the eighteenth amendment because we failed to keep temperance instruction in the schools," she declared.

In the mountains of Tennessee, where from 70 to 90 per cent of the people are illiterate, the speaker said, the communist doctrine is being disseminated by speakers. Mrs. Northrup told of a young woman of 26 years of age who came from the mountains to one of the mission schools established by the Women's Foreign Missionary society and who slept in the chicken coop and cared for the chickens because there was no other place for her in the institution.

Mrs. Northrup told of work being done among the southern people where social and educational work is carried on in conjunction with spiritual training. Need of education in California is shown by the fact that there are more divorces in this state than in any other state in the union with the exception of Nevada, she declared.

An interesting fact in regard to the needs of education was brought out by Mrs. Northrup when she told of visiting Plymouth, Mass., where the Pilgrims landed, and hearing scarcely a word of English spoken in the time she was there. In speaking

of foreign people who retain their old religions and customs, Mrs. Northrup said that there are 49 Buddhist temples on the Pacific coast.

Indians are hard to reach, she said, because of the way they have been treated by the United States government. Mrs. Northrup urged the addition of members to the society and a number of non-members present signified their intention of joining the organization.

Mrs. Northrup chose as her subject the topic selected by the society for the year's work.

MISSIONARIES PLAN VISIT TO ISLE OF PINES

ORANGE, Sept. 23.—The Rev. and Mrs. Joseph Thacker, who have spent the past year in this city, are considering going to the Isle of Pines off the coast of Cuba. They were missionaries to Mexico and South American countries for many years and came to California because of the Rev. Mr. Thacker's ill health. They met in Bolivia, South America, where Mrs. Thacker went as a girl missionary in 1898.

Their son-in-law and daughter, Mr. and Mrs. Carl D. Stewart, went there in September a year ago as Methodist missionaries. An article in the World Outlook tells of the remarkable progress made by the two young people in religious lines. They opened the first Methodist church on the island October 3 with 23 members, the first Cubans ever to be received into the Methodist church on the Isle of Pines.

The writer of the magazine article states that on April 5, 1932, the third church was opened with 44 members and prospects are bright for opening a church at San Pedro on the other side of the island. Many of the Cubans, it is said, had never before heard a Protestant sermon, and the Rev. Mr. Stewart was the first man ever to preach at the San Pedro center.

Mr. and Mrs. Thacker did their first mission work on this continent in Santa Ana and were the first missionaries to work with the Mexicans of Orange county.

HINTS ON PACKING SCHOOL LUNCH BOX

An adequate and well-balanced meal is as necessary for the school lunch-box as the home luncheon.

This meal must be a satisfactory supplement to the other two meals of the day and must be nourishing and inviting. If carefully thought out and planned the day before, there will be less confusion in the morning before school when every minute must count.

It is very easy to let school lunches become monotonous. Certain foods pack easier than others. It is true, but different combinations and changes can be worked out that will make the luncheon more interesting to both the packer and the child.

Consider Tastes
Careful consideration should be given to personal likes and dislikes. Neatness and order appeal to all children. Girls, little and big, like daintiness. Boys, on the other hand, scoff at this feminine trait and want big thick sandwiches, big thick cookies and so on through the list.

Another factor of importance is the age of the child. Children under 12 require a different sort of

lunch than that planned for the boy or girl in high school.

If there is not a school cafeteria, a hot drink or soup should be carried in a thermos bottle. The hot food aids digestion and does much to relieve nerve strain.

The sandwich is the mainstay of the lunch box and must be concocted to furnish much food value. Variety of breads as well as fillings make it possible to vary the sandwich from day to day.

Carefully wrapped celery, radishes, carrot sticks and hearts of cauliflower give balance to the meal by supplying bulk and crispness to a diet that is likely to be concentrated and soft.

Meat Combinations
Whenever meat is used in a sandwich, try to combine it with lettuce, grated carrot or minced celery. The combination gains both food value and piquancy.

Fresh fruit always is suitable and desirable for dessert and is easy to pack. Individual baked custards and firm tapioca puddings can be used occasionally for variety. Cookies and cup cakes are popular and are easy to eat. Three or four dates, raisins, figs and well scrubbed prunes also will satisfy a child's natural craving for sweets and add nourishment as well.

The packing of the food in the lunch kit is of vast importance. There are so many attractive containers available at small cost

that the task is lightened and neatness is assured. Well-wrapped foods stay fresh and appetizing, so use plenty of waxed paper, wrapping each article before putting it in the box. Put the dessert in first. Otherwise the box must be unpacked to reach the sandwiches and there is the possibility that the dessert only will be eaten and the rest of the lunch overlooked.

473 Students in 2 Grade Schools

BUENA PARK, Sept. 23.—Registration of pupils in the local schools shows a drop over last term, 473 being enrolled at the present time, 46 below last year's enrollment. The expenses of conducting the two schools have been scanned from every angle and have been cut wherever possible. Children of the first three grades and kindergarten who live on the north side of the Southern Pacific tracks are attending Lindbergh school. The fourth grade at Lind-

bergh has been moved to Grand avenue school for the present term. Kindergarten in morning and afternoon sessions under the direction of Miss Louise Albright will alternate between the two schools, with the morning session at Lindbergh school at present.

Picnic Honors O. E. S. Officers

LA HABRA, Sept. 23.—Miss Dorothy Doane, worthy matron, and Homer C. Holzgrafe, worthy patron of La Habra chapter, O. E. S., were honored guests at a picnic supper and card party held in Fullerton.

Picnic tables were decorated in yellow and green and places were marked for 20 officers and their husbands and wives. Gifts were presented to the honored guests.

A chapter meeting of the O. E. S. was announced for this evening at the Masonic temple, at which time a number of guests will be present.

Brea Legion To Hold Dinner Soon

BREA, Sept. 23.—Members of the Legion house committee at the regular meeting Wednesday night reported that the Woman's club had accepted their offer for the use of their auditorium the coming season and that the club's next meeting will be October 11, which will be a dinner and evening entertainment. The committee also reported on the chamber of commerce community night program will be in the Legion auditorium.

Ben Sutton and J. L. Mathews were chosen to act with the American Legion auxiliary at the October 23 hi-jinks program.

At an executive meeting following the regular meeting plans were made for the Legion to hold an "old timers" baseball game in the near future. It was also planned to hold a stag party next Tuesday evening, with dinner at 6:30 o'clock.

GOES DOWN HALF MILE UNDER SEA

NEW YORK, Sept. 23.—(UP)—William Beebe, authority on undersea life, yesterday descended almost one-half mile into the Atlantic ocean off Nonesuch Island, Bermuda.

At 2100 feet he had exceeded the greatest depth man had ever reached before, and was still going down, determined to reach a depth of 3000 feet.

He was in a ball of one and one-quarter inch steel, four and one-half feet in diameter.

Beebe described his descent over a National radio hookup. At 3:20 p. m. (EDT), when he went off the air, he said he was at 2100 feet. His ball was rolling badly, but he was enjoying his trip immensely, observing thousands of varieties of fish he had never seen before.

Wheat Contains the Sixteen Essential Elements for the Sustenance of the Human Body.

Therefore, our Malted and Toasted Wheat (made from nothing but the pure wheat) is the ideal breakfast cereal, particularly for the growing boy and girl.

A trial package may be had for the asking. The whole wheat flour, rye flour, yellow and white corn meal, etc., ground by our old-fashioned stone buhr mill, have all the natural salts and vitamins left in.

W. J. Jamison, 64, a transient, riding with Wheatland, was seriously injured and taken to the county hospital for treatment. Dr. Bolce stated that his legs were broken and that he had suffered injury to his left side and a fracture of both wrists.

The accident occurred at the intersection of Hiatt street and the state highway in La Habra, when Mrs. Bailey attempted to pass a truck. The cars met head on and were badly damaged.

SCIENCE FINDS NEW MERITS IN ALL-BRAN

Has "Bulk" and Vitamin B for Constipation, and Iron for Blood

In the past ten years millions have found Kellogg's ALL-BRAN the safe "cereal way" to overcome common constipation—with the headaches, backaches, loss of appetite and energy, that so often result.

Behind this success is the proved effectiveness of ALL-BRAN. Laboratory tests show ALL-BRAN brings two things needed to overcome common constipation: "Bulk" to exercise the intestines. Vitamin B to tone the intestinal tract. ALL-BRAN also contains twice as much blood-building iron, by weight, as beef liver.

The "bulk" in ALL-BRAN is much like the bulk in lettuce. Inside the body it forms a soft mass. Gently it clears the intestines of wastes.

How much more pleasant it is to use this delicious cereal than to abuse your system with pills and drugs—so often habit-forming.

Just eat two tablespoons daily with milk or cream—sufficient to overcome most types of constipation—in serious cases, with every meal. If you have intestinal trouble not relieved this way, see your doctor.

Special cooking processes make ALL-BRAN finer, softer, more palatable. It is not habit-forming. Appetizing recipes on the red-and-green package. At all grocers. Made by Kellogg in Battle Creek.

La Habra Union To Sponsor Skit

LA HABRA, Sept. 23.—Members of the W. C. T. U. of La Habra will ask the Law Enforcement League of La Habra, of which Ross N. Hodson is president, to join them in presenting here MacDonaid Summers and Ed Hall in "Wet vs. Dry."

This is a skit which was first given in 1916, depicting the saloon keeper and the license commissioner, and the theme of the play has been revised to fit the present status of the wet and dry question of 1932.

No date for this program has been announced.

for in Gonzaga. The Bulldogs had Oregon State beaten last week until the final two minutes of play, demonstrating fighting ability that may bring woe to the Seattle squad in their first appearance of the season.

"Pop" Warner's Stanford Indians were suffering from stomach trouble on the eve of their encounter with San Francisco university. Warner announced that his entire squad was ill from a stomach ailment; that Quarterback Ed Walker had a groin injury, and that his new kickoff formation was not perfect.

Coach "Spud" Lewis of the Dons is a protégé of Warner's Stanford teams and merely hooted at Warner's gloom, and announced his team ready for any Warner trickery. This will be Lewis' premier as a head coach.

Oregon, making its debut under the tutelage of "Prink" Callison, meets Pacific university under the electric lights in Eugene tonight.

U. C. L. A. also opens the season under artificial light at Los Angeles tonight against their kindred school, California. Although the Bruins rule favorites, the Aggies displayed power to be reckoned with in their game with California last week.

Oregon State takes a "breather" tomorrow in entertaining Williamette. Washington State anticipates little trouble from the College of Idaho, and Howard Jones' U. S. C. Trojans planned to use at least two strings of players against Utah. Idaho meets an annual rival in Whitman.

Ministerial Family Now Established in Home At Sacramento

Departure from the Southland of the family of the Rev. Logan Harter, former pastor of the United Brethren church of Santa Ana, leaves quite a blank in ministerial and teaching circles in this city, although warm interest and friendly congratulations accompany the Rev. Mr. Harter to his new charge in the northern part of the state.

In the two years or longer since Mr. Harter was pastor of the local church, he has been stationed in Los Angeles, where the family home was maintained although Mrs. Harter continued her teaching in this city with the adult education department of the city schools. Their daughter, Miss Elsie Harter, was wedded in early September, to Jay Steward Anders of Riverside, at a ceremony conducted by Bishop Ira D. Warner of Portland, in Los Angeles Third United Brethren church. The young people are now living in Riverside.

A son of the home, Melvin H. Harter, equally well known in this city, recently completed a summer pastorate in the mountainous district of Colorado near Craig, and after a short visit with his parents in their new home in Sacramento, left for Yale university for his final year. A second son, Delbert Keith Harter, accompanied the family to the new home in the north.

The present address of the Rev. Mr. and Mrs. Harter is 911 Nineteenth street, Sacramento. Mrs. Harter had been engaged in Americanization work in this city for eight years, continuing it after her husband's departure from the local pastorate, so that the autumn's first teachers' meeting in this city coincident with the opening of the school year, was the first she had missed in that period of time.

Members of the sorority were concerned principally with plans for the first of their autumn entertainments, which will be held tomorrow in Fullerton. Miss Eloise Wright of 401 Canon Lane, that city, will serve as hostess for the affair, which will take the form of a bridge party.

Among those arranging to attend tomorrow's event are the Misses Jean and Betty Rowland, Carol House, Agnita Wheeler, Lucille Conaway, Doris Goff, Jean Peacock, Eloise Wright, Mary Read, Winifred Johnston, Virginia Berry, Ane Tarver, Barbara Westcott, Alice Mors, Louise Leck, Mesdames Frank Selway and Edmund Linsendard.

Mills college alumnae residing in this community are invited to attend the opening fall meeting of the Orange County Mills club in the home of Mrs. Frank Andrews Jr., 1119 North Olive street, at 2:30 o'clock tomorrow.

Members of the I. T. U. auxiliary were reminded today of their covered-dish dinner to be held tomorrow evening at 6 o'clock in the Orange Grove Chicken Shack on the highway between Orange and Anaheim. The union members and their families are to attend the affair, and all are to bring their own table service. Cards will be played and those who cannot attend the dinner are urged to be present for the card party, which will be open to the public.

Santa Ana chapter, Daughters of the American Revolution will meet Saturday afternoon, October 1, for a noon-day covered-dish luncheon with Mrs. E. G. Summers in her cottage at Arch Beach.

Sycamore Rebekah lodge will meet Saturday night at 8 o'clock in the I. O. O. F. hall for a regular session and initiation. There will be refreshments. All members are urged to attend.

The Mother's club of the American Legion auxiliary will have an all-day meeting Monday with a covered-dish luncheon at noon in the Legion hall. The day will be spent in quilting and comfort work. All members of the club and of the Legion auxiliary are invited to be present.

Santa Ana Woman's club will observe President's day Tuesday, September 27, with a reception that afternoon at 2:30 o'clock in the home of Mrs. G. J. Mosbaugh, 626 North Broadway, with Mrs. William Wells, leader of the social section, assisting. A program of music and readings has been arranged by the committee in charge.

which begins Oct. 22...Herb Duncan has already played four positions for the Saints and the season hasn't even started...Coach Bill Cook and Captain Jimmie Hall of Santa Ana Jaycee will be on the air tonight at 8:30. The Jaycee is planning a party for a parish dinner to be held Tuesday evening, September 27 at 6 o'clock.

A variety of colorful flowers decked the tables where luncheon was served, and nut cups in yellow, green and lavender were used in carrying out decorative details.

Committees in charge of the luncheon included Mrs. E. F. M. Sycamore, general chairman and Mrs. F. Pope, Mrs. George F. Licht, Mrs. C. S. Dunphy, Mrs. F. H. Finney, Mrs. James Farrage and Mrs. A. B. Lester. Mrs. Harry Spencer, chairman of the tables, was assisted by Mrs. Ward Lindley and Mrs. Frank Hoffman.

The meeting of the Senior Guild followed the luncheon. At this time plans were made for a parish dinner to be held Tuesday evening, September 27 at 6 o'clock.

JIMMY WALKER A FALLEN IDOL

From New York comes the report that exhibitions of Jimmy Walker on the news-reef pictures are universally boomed. Only a few months ago he was the idol of the mob. His wisecracks and his showman methods caught the crowd. When he went to Albany for his hearings before the Governor, crowds saw him off; and crowds welcomed him as he left the station in Albany and the church, where he had gone to mass with his wife, with whom he did not live, before the hearing. At all the hearings, both before the Hofstadter committee and before the Governor, his sympathizers cheered him and booed his inquisitor. He certainly was the idol of the crowd, much to the disgust and the sorrow of respectable folk.

Then came the intimation that the Governor would have to remove him. The officials of Tammany got busy, called the mayor into their presence, and the resignation was the result of the conference. Needless to say, the mayor was forced to hand in his resignation. Tammany may not be outraged by corruption; but it does shrink from carrying an official who will be a liability before the voters. Jimmy resigned with a blast at the Governor, to which the Governor made no reply, and announced that he would make his appeal to the people at the next election. This, we suspect, was to save his face. In the meantime, his successor is doing some very creditable housecleaning, evidently at the suggestion of Tammany or by its permission, and Jimmy has fallen into the background by going to Rome and visiting Mussolini.

So, we venture to predict, ends the political career of the Hon. James J. Walker, who for nearly eight years has wisecracked and buffooned himself into popular favor. No longer an idol, the crowd which yesterday cheered him turn about and boo him. Woe unto him who trusts the loyalty of the crowd. Only modesty, integrity, and a decent respect for the opinions of mankind befits a public official if he would retain the respect of the people. The fickle crowd wants to be with the winner. When they thought that "Jimmy" was on top they liked to be there with him. But that kind of a crowd deserts him when he topples, particularly when he has to confess.

A woman in Massachusetts has just divorced a husband who had previously divorced her. Still determined to have the last word, we suppose.

SALES TALK AND PRICES ON RADIO

There has been considerable criticism of radio for the amount of sales talk on sponsored programs. This criticism has had its effect in the adoption by the officials of radio of rules regulating not only the amount of talk but also the mention of prices of articles advertised.

The head of the Columbia Broadcasting system has just announced new rules concerning this matter. Heretofore, the mention of prices has been prohibited. Under the new rules not more than two price mentions and a sales talk of one and one-half minutes will be permitted on five-minute programs; three price mentions and three minutes of sales talk on a half-hour program; and five price mentions and six minutes of sales chatter on an hour program.

These new rules are tentative, it is announced. It is a tryout. We shall probably hear more figures on the air from now on. These new rules are in the interest of the advertiser and the radio owner alike. No radio company wishes to get a reputation for dull programs; and, surely, it is not in the interest of any advertiser to be the sponsor of a program to which few listen. After all, what the people turn on the radio for is entertainment or instruction. They are perfectly willing to listen to a certain amount of sales talk. But if the sales talk is too outstanding, they are likely to turn off, and neither the station nor the advertiser is profited by it.

Radio advertising is still in an experimental stage, and the radio promoters are studying the whole project with great care and observation. And well they may.

STRAW VOTES: TAKE YOUR CHOICE

Now we have two presidential straw votes, one by the Hearst papers which show Roosevelt in the lead, and one by the Literary Digest, which shows Hoover in the lead. You can take your choice and each can take comfort out of the particular one that they want.

The truth is, that probably neither one is very reliable. The voters do not follow the straw vote and in some cases one person is known to receive several ballots and in other cases no ballot. And in some cases we heard of Democrats declaring that they are for Roosevelt but voted for Hoover four years ago when they actually voted for Smith. How many of these there are, none can tell.

In the meantime, Daniel Poling and the allied forces for prohibition are planning a big campaign across the country for Hoover, to emphasize the idea that Hoover is better for the "drys" than is Roosevelt.

COAST FOREIGN TRADE INCREASES

There are some strong indications on the coast of increased business. According to the statements of our Pacific coast foreign trade there is an increase of twenty-one per cent and it is predicted by those who have information that this increase will continue through September and October.

The Bureau of Foreign and Domestic Commerce declares that the Pacific coast foreign commerce was more than six million in advance of that of July. In imports there was an increase of twenty-four per cent in the August figures over the July. While, of course, it is a very distinct loss over a year ago, yet an increase in August over July is very significant.

ROOSEVELT VS. ROOSEVELT

In one of the magazines, in a short time, there are to be two articles on politics, if not more in the same issue, giving reasons why one should support a particular party ticket. The nominee for the presidency on the Democratic ticket, Governor Roosevelt will write the one appealing for the Democrats and Theodore Roosevelt, the governor-general of the Philippines, will write the one for the Republicans.

It is Roosevelt vs. Roosevelt, so to speak. Some thought that Roosevelt was too far away to really get the atmosphere but he, thought otherwise.

MORE RAILROAD TROUBLE

Now it appears that the railway labor leaders have refused to meet the railroad operators to discuss the proposed wage cut but have taken the matter directly to the President. It seems that they are going to stand on what they may technically claim to be their rights under the law and their argument at any rate precludes an amicable settlement between them and the railroad. It is entirely unfortunate that at this time this additional trouble should arise to vex the railroads in their effort at recovery. It is to be hoped that it will be settled without trouble.

GENEVA RECOGNIZES EXIGENCY

We are glad to note that at Geneva the importance of the necessity of arms cuts is being considered and it appears quite likely that something will be done. Germany's attitude will force a show-down and even Russia, with their insistence of a distinct cut, is playing a real part in the program just now.

Panama Jungle Fails a Scientist

Curator Dittmars is back at the reptile house in the Bronx Zoo, after a scientific mission to Panama from which he returned even more empty-handed than he had been an astronomer in search of a total eclipse. The object of his quest was a living specimen of the bushmaster, the largest poisonous snake on the American continent, and one of the rarest in captivity.

No less than eleven bushmasters were killed on the site of a new dam at Panama in the three months preceding the arrival of the big reptile and mammalia man from the Bronx, but not a bushmaster was seen during the three days of his sojourn on the spot. In this respect his experience was surprisingly like what it would have been if he had landed in Southern California and it had started to rain. The Panama residents must have been at a loss to explain the unusual behavior of the local fauna.

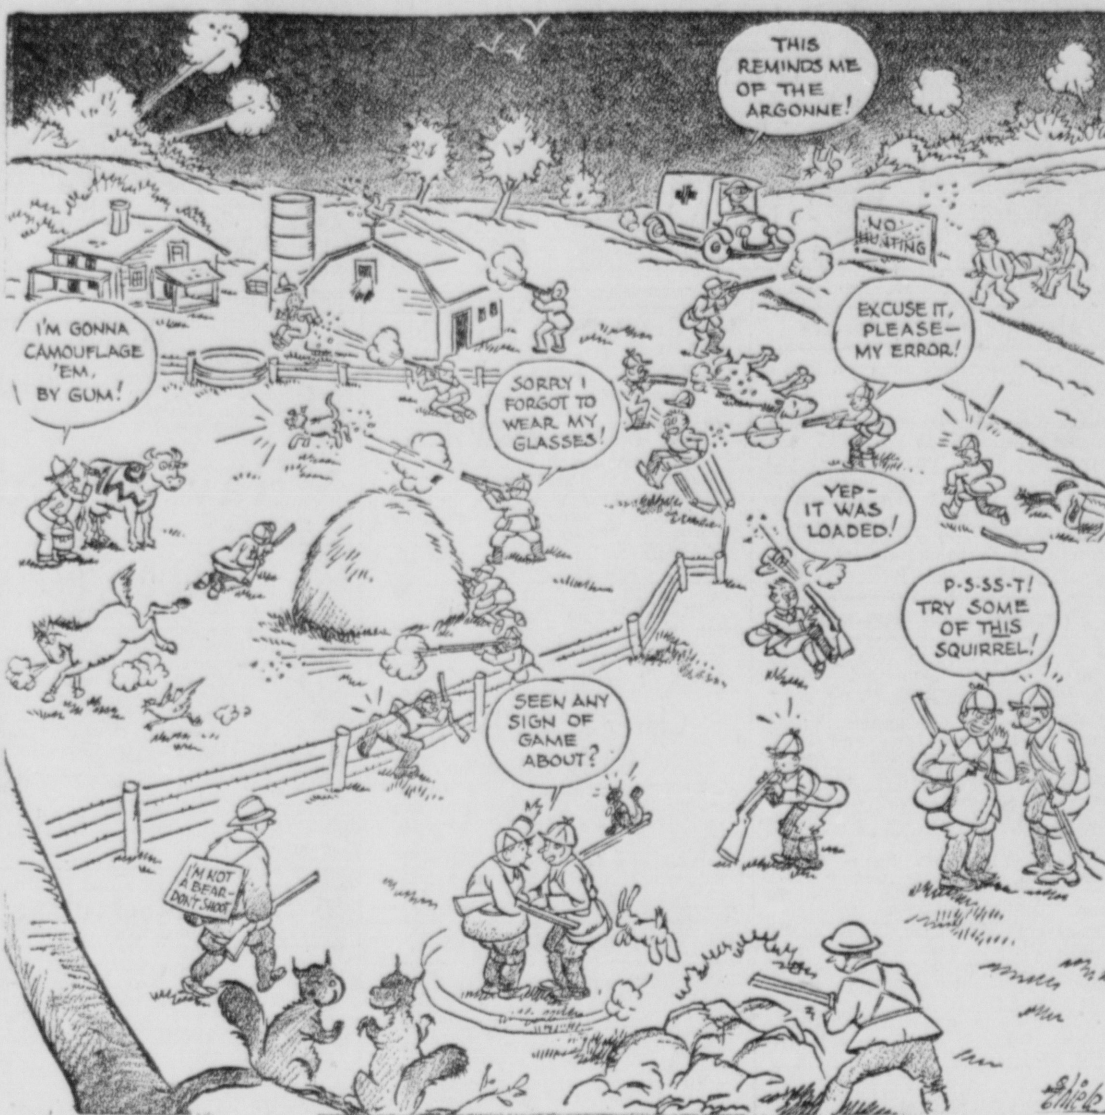

Mr. Dittmars brought back a number of consolation prizes, among other a tropical katydid which emits its characteristic note on all occasions and with unflinching zest, very much like a politician. Nevertheless, it must hurt to be the biggest snake man in the United States and fail to secure a specimen of the kind that simply swarms in the detective novels, where their sting is instant and untraceable death.

They Do Care

She used to dance and jerk her head until her hair fell into her eyes and—all the while—sing a song the theme and name of which was "I Don't Care." That was the Eva Tanguay another generation knew, an entertainer who, in the face of an approaching jazz era, was a little ahead of her time.

It was reported a few weeks ago that Eva Tanguay was ill and destitute and the pictures printed of her, resurrected from the files, were those of the "I Don't Care" days. Thousands thought of other days, brought back to their minds the concert hall scenes, and thought sentimentally of the contrast. It is good to know that the men and women in the vaudeville profession, traditionally kind-hearted and emotional, are caring for Eva Tanguay. She has an apartment now and medical attention and because of those who answered the old song with a better one, "We Do Care."

The Hunting Season Opens

More Truth Than Poetry

By James J. Montague

CONFESSION

I have never tracked a lion through the jungle, Choked a walrus where he lay upon the sands, I have never faced a puma in the land of Montezuma, Nor have fought a Bengal tiger with bare hands. I have never thumbed my fingers at a grizzly, While he galloped down the pine-clad western hills: I perhaps deserve your censure, but I do not like adventure, And have never nursed a hankering for thrills.

For the things that set the hunter's heart a-tingle I have never had the slightest hint of thirst. It has been my rule of living to be kindly and forgiving, While my motto has been always safety first. I would never fight a shark if I should meet one When I happened to be bathing in the sea; Shooting falls inside a barrel is a form of deadly peril Which has never had the least allure for me.

If a burglar came to rob me in the night time, With a pillow I should cover up my head; Though I know it would be braver to sit up without a quaver, Draw a bead upon the wretch and shoot him dead. I would never dare to scale a snow-clad mountain, Or to use offensive words to racketeers; My desire to be a hero has been practically zero And, I hope, will so continue through the years.

It may be that I have missed the joy of living, That alone the man devoid of fear can feel, It may be that I am dowered with the make-up of a coward When I ought to have a soul of tempered steel. When I ought to have a soul of tempered steel, To arouse the wrath of either brutes or crooks. Though perhaps there's satisfaction in a life of stir and action I get all I ever care for out of books.

Pop was smoking and thinking in his private chair, and ma was looking at him and shaking her head, saying, O, Willyum, when are you going to let your mustash start to grow again?

For Peet sake are you going to start in all over again? pop said. And that reminds me, didn't I hear you tawking to Gladdis over the fone and raving about how perfectly divine and divinely perfect Ronnel Ronnel looks without his mustash in some asinine picture or other? he said.

Yes, but that's altogether different, ma said, and pop said, O it is, is it? Well why is it? Please be obliging enough to inform me in a few well chosen words just why it's different, he said.

Why, because it is, I mean after all, Ronnel Ronnel, I mean, ma said, and pop said, If you know what you mean I must say you're not clothing your tawths in very lucid language. Well, go on, I'm waiting to hear just why a piece of movie dumber can convert himself into a thing of bewty and a joy for everybody, by shedding his mustash while your own lawful husband by the same process becomes an eyesore and a mongstrosity. Go on, I'm patiently waiting for the explanation, he said.

Now Willyum you know very well what I mean, I mean what I mean is, I mean, ma said, and pop said, No doubt, and so on ad infinitum. The truth of the matter is that you cant appreciate bewty in your own home life, the real fact is you're blind to the humble but lovely flowers that bloom on your own doornill while you grow coudle eyes looking for imported blooms that turn out to be full of hot air, he said.

O my goodness all rite, you're a perfect Hercules Adonis, you're the grandest spectacle ever seen by mortel eyes on land or sea or the berds of the air, how's that? ma said.

Thoughts On Modern Life

By GLENN FRANK

SCHOOLS, NATIONS, AND THE WORLD

As we undertake to come to some national agreement on what we want our schools to contribute to the American future, we must ask and answer, as I stated yesterday, three basic questions at the outset. They are:

(1) Do we want our schools to train our children to blind acceptance of the political, social, and economic order as it now exists?

(2) Do we want our schools to undertake to sell to our children a new and different social, political, and economic order?

(3) Do we want our schools simply to develop our children individually to the utmost and leave to them the decision between the relative desirability of the old order and some new order?

Today I want to suggest three further questions we need to ask about the purpose of our schools. They are:

(1) Do we want our schools to train our children for individualism?

(2) Do we want our schools to train our children for nationalism?

(3) Do we want our schools to train our children for internationalism?

These three basic questions led Mr. Carleton Washburne, in a recent tour of the world, to ask the schoolmen of the major nations such questions as the following:

"Do you wish so to educate the children of your country that they will put their country's demands first and those of their personal conscience second, or vice versa?" That is to say, in such questions as pacifism and prohibition, should our schools train our children

to follow the lead of their personal consciences and personal convictions or the lead of their government? In short, should individualism be the major objective of the schools?

"In teaching the children about the lives of your country's great heroes and in teaching them the history of their nation, should there be an attempt to give a strictly objective and accurate point of view, or should this historical material be so presented that it will implant certain ideals and a veneration for their country and its heroes even at the expense of strict historical accuracy?"

That is to say, should nationalism be the major objective of the schools?

"Should it be one of the important conscious aims of education to inculcate in a child a feeling of responsibility not only for his own nation but for the world community of nations? If so, how would you reconcile the apparent conflict between loyalty to one's own country and this wider loyalty?"

In short, should our schools recognize the growing interdependence of the world by stimulating a world-sense and a world-loyalty in our children?

On these questions, as on the questions I stated yesterday, there is widespread confusion of counsel among American teachers. We need to come to some national unity of judgment on the relative roles of individualism, nationalism, and internationalism in the work of the schools.

SULKING

A sulky child is the bane of a teacher's life. He puts a cold blanket on the whole class. He weighs like so much lead on the teacher's spirit. She treads softly around him. She tries to avoid his touchy spots. Then all of a sudden he doesn't like something. His elbow comes up on the desk. His head droops to his cupped hands. Clouds gather on his face and his darkened brow dims the atmosphere.

If only he wouldn't sit there like a dumb animal. If only he would speak out what is in his mind. If he would go out of the room and stay until he felt better. Anything but sit there glowering like a goblin. He gets on my nerves so that I cannot think of anything but him. I can't stand him in this mood."

So say we all of us. But what can we do? The sulky child certainly does not like himself. He carries his self tied to his neck like the Albatross. He is suffering more than any of us and he knows as little as we what to do for relief.

The sulky child is self-conscious. He thinks that everybody is looking at him, thinking about him, measuring him and finding him wanting. He thinks that everybody is against him. He finds that by sulking he can draw attention to himself and make the rest of the folks miserable. He rather likes the thrill of power that brings him. But he is unhappy and greatly to be pitied. We have to find some way of relieving him of his burden.

The first thing to do is to attend to his health. A healthy child does

not sulk. Health gives him a feeling of power. He will bring extends to his toes and to his finger ends. He keeps things in proportion. He knows that if he loses out here he will gain there and he goes on his way rejoicing.

The sulky child needs medical help. His diet needs adjusting. His body needs a thorough overhauling, tuning up. When he can laugh he will cease to sulk. Good health and then sound thinking, which usually comes easily after, does away with any feeling of personal failure. It is that feeling of unfitness, of being cast out, that brings the sulks.

Don't scold a sulky child. Let him alone until you can reach the root of his trouble. Instead of speaking about his dark mood send him to do something helpful, either for himself or somebody else. Give him a chance to do something in which he excels. Once you find a field where he can shine you have the key to the situation.

Keep him busy. Keep encouraging him. Keep before him some idea of health, work, success. If he can be inspired by some fine personality let him have it in full quantity. But build up his health. That is the heart of the matter. Healthy children are cheerful, ambitious, satisfied. The sulky child is a sullen child. Mind and body need help.

THE BALKAN SWEEP

On Sept. 23, 1918, allied armies in the Balkans swept back the mixed German and Bulgarian troops, cutting off the First Bulgarian Army at Priepe from communication with the Second Army in the Dolran section.

Germans were in a wild rout at Vendeuil, on the Oise, giving up the position to allied troops. British, northwest of St. Quentin, captured strong positions.

British cavalry, fighting hand-to-hand along the Mediterranean coast, pushed through to occupy Haifa and Acre, besieged at successive defeats. Turkish east of the Jordan cut off the Damascus-Medina railroad to the north and retreated in mad flight southward.
